The SAT is often a part of the 4-year college application process. However, it is worthy to mention that some colleges are moving away from the SAT, and you should check their admissions requirements prior to registering for a test or applying to the college. Strasburg High School will be hosting the SAT just once during 2nd semester, however, there are surrounding schools that will be hosting where you can register. This is the typical time that juniors will take their first SAT. It is recommended that Algebra II be completed or nearly completed when students take this test.

Many students and parents ask what the primary difference between the ACT and SAT, and which one is better to take. The ACT is math and science focused, while the SAT is reading comprehension and math focused. Some students may have a preference based on what their strengths are in the classroom. Strasburg High School does not host the ACT because there is less demand for the test in the area. However, surrounding area schools may still host. Again, Algebra II is recommended to be completed or near completion before taking this test.
