

# Danielle MacKinnon - Pet Mediumship 2025

Module 1: August 22, 2025

## Get Out of the Way so the Animals Can Get Through to You

Before any real communication with animals on the Other Side can happen, you have to make space for it — and not just mentally.

Learn how to **shift your energy so you're not just *hoping* to connect, you're *available* for it**. Danielle will guide you through her signature approach for clearing the energetic clutter that unknowingly blocks animals in spirit from reaching you.

This isn't about going silent or clearing your mind. **It's about getting out of the way so your pet can finally get through.**

Whether you're brand new to pet mediumship or already trained, **this step changes *everything***. Walk away with a completely different understanding of how to position yourself energetically for real, repeatable connection.

**In this module, you'll:**

- **Master the energy shift** that moves you from “trying to connect” to magnetically available
- **Be guided through Danielle's proprietary technique for energy mastery**
- Uncover the sneaky thing your brain does that scrambles animal's psychic signals — and **the simple fix** for it

- Discover why **your grief might actually be your pet's biggest obstacle to reaching you**
- Stop being blocked by emotional static and position yourself to **start receiving clear spiritual communication**

Module 2: August 29, 2025

## Meet Your Mystery Guide on the Other Side for Your First Soul Level Connection

As this course isn't about learning theories, **jump right in and start experiencing the animal afterlife** firsthand! Animals on the Other Side have revealed **stunning insights about death, dying, and what really happens as they pass.**

**You'll get to hear those revelations directly.** Even more importantly, you'll get to *feel* them.

Through a guided connection with an animal in spirit, **glimpse what the animal afterlife is actually like — and how deeply these beings still want to interact with us.**

Explore **how communication direction shifts after death**, and why it often feels different from what you expected. Find yourself forever changed — no longer wondering if it's possible to connect, but *knowing* it is.

**In this module, you'll:**

- **Get the real scoop on animal afterlife** — straight from pets who've crossed over
- **Be guided through a Soul Level meet-and-greet**
- **Discover what your pet is actually doing on the Other Side**

- Learn why your deceased pet “talks” completely differently than they did when they were alive
- **Find out the one thing your pet desperately needs from you to make contact**
- **Meet your first animal guide in spirit** and prove to yourself this connection is real

Module 3: September 5, 2025

## Enter a Liminal Space Between Our World & the Animals Your Gateway to the Other Side

Once you’ve opened your intuitive channel, you need a reliable way to enter the conversation.

**Danielle has a surprise go-to method for consistent, Soul Level mediumship with animals in spirit.** It’s a unique energetic space that acts as a bridge between your world and theirs.

Learn how to recognize when you’ve “arrived,” receive messages without projecting your own hopes or assumptions, and understand what’s coming through, even when it’s subtle.

This is **the access point for you to return to again and again** — not just in this course, but for life. Once you’ve met an animal here, you’ll never forget the way back.

**In this module, you’ll:**

- Step into the energetic meeting ground **where you and an animal in spirit can connect** soul-to-soul

- Be guided through a **liminal space meet-and-greet with a passed-over pet**, as well as a debrief
- Recognize **an animal's energetic signature in the afterlife**
- Practice receiving intuitive data as the animal wants you to — not as you want to
- **Decode the way animals in spirit actually send messages**

Module 4: September 12, 2025

## Managing Your Biggest Obstacle Being a Living Human

Our emotions, thought loops, and long-standing patterns don't just affect us — they shape the way we receive (or don't receive) messages from animals in spirit.

Learn how to spot the specific human habits that quietly interfere with Soul Level Animal Communication®.

Danielle will demonstrate **how to work with the emotional layers — grief, guilt, fear, or pressure** — that show up during a connection and influence what you're receiving. Understand how to separate your human processing from the actual intuitive signal, so you can **stop second-guessing and start feeling confident in what's real**.

Rather than fight your feelings, discover how to **work with them to open the channel in more consistent, grounded ways**. Build a clear, compassionate framework for navigating your human “stuff” without letting it take over the connection.

**In this module, you'll:**

- Learn why **guilt slams the door shut while grief can actually open it wider**

- Be guided through a **reset exercise that separates human static from intuition**
- Discover how **your “messy” emotions can actually strengthen the spiritual connection**
- **Practice connecting** after moving through a difficult emotion
- **Catch your brain in the act of making stuff up** and get back to real communication

Module 5: September 19, 2025

## Time Travel With Animals Who've Passed to Receive Insights, Healing & Validation

Animals in spirit experience time completely differently from us. Once you understand what that really means, your entire approach to connection — and even relationships — transforms.

Discover how animals on the Other Side navigate timelines — this directly impacts the messages and experiences you can have with them. Learn **how to step into the timeless realm where animals communicate** most naturally.

By accessing this unique space, **revisit key moments from your pet's life** (and even from before or after it) to receive insights, healing, and validation that can't be accessed any other way.

This isn't about remembering the past — it's about discovering the Soul Level threads woven throughout your relationship and **gaining wisdom from every phase of their journey with you**.

It's **one of the most transformative aspects of animal mediumship** — and one that will leave you forever changed.

**In this module, you'll:**

- Discover **how animals work with time** (very differently from humans!)
- **Take a time-travel journey with an animal who's passed** to uncover truths you never suspected or understood
- Learn how to **request information from specific phases of the pet's life**
- Explore how timeline-based messages often tie into **Soul Level lessons**

Module 6: September 26, 2025

**The Real Reason Passed Pets Choose Us Learn the Soul Lesson Your Animal Wants to Offer You**

This session goes straight to the heart. Animals don't choose us by accident. Your animal's soul **chose you for a reason** — and once you understand why, it changes how you see your entire relationship.

Danielle will guide you through a deeply personal process to uncover **the soul lesson your beloved pet came here to help you learn**, and how they may still be helping you evolve even now from the Other Side. Explore not just what your pet came to teach, but how **they orchestrated events in life (and perhaps their death)** to support your growth.

**Work directly with your pet in spirit to identify their lesson for you** and discover what to do with that today. This will likely be the moment when your pet's passing **transforms from a tragedy into a sacred initiation of healing, growth, and purpose.**

**In this module, you'll:**

- Stop settling for basic "I love you" messages when **your pet has something profound to teach you**

- **Be guided through the “5-step Soul Lesson” process**
- Identify which of **the four major life lessons your pet came to help you heal**
- Use **a proven formula to uncover the deeper purpose behind your pet’s behavior and passing**
- See how your pet orchestrated their entire life (and death) around **helping you grow**

Module 7: October 8, 2025

## Beyond Your Own Pets Connecting With Universal Animal Guidance for Personalized Support & Insights

You don’t have to already know an animal to receive life-changing wisdom from them.

**Connect with an animal in spirit that you’ve never met before** and experience what it’s like to **receive intuitive guidance from a being whose only job is to help you evolve.**

Danielle will guide you into this connection. Learn how to **open to universal animal consciousness and receive personalized support, insight, or next steps** from the animal guide who’s shown up to focus on you.

This is where Soul Level connection becomes more than just a reunion with a beloved pet — it becomes **a pathway to spiritual mentorship, healing, and guidance** that extends far beyond the personal.

Leave this session knowing you’re never alone, and that **animal wisdom is always available to support your next steps.**

**In this module, you’ll:**

- Discover how your pet's spiritual guidance actually gets stronger after they cross over
- **Return to that liminal space between the earthly plane and the animal realm, to connect with a passed-over pet**
