

GSOC and IEC-NYU Joint Statement Calling for Termination of NYU-NYPD Ties

This statement, which highlights the specific nature of the relationship between NYU and the NYPD, is made in support of a cross-campus call for cutting ties with police departments. You can find that statement below and sign it [here](#)

The Incarceration to Education Coalition (NYU) and GSOC-UAW Local 2110, the union of graduate student workers at NYU, join students and workers across the country who are calling for an end to police terror and white supremacy. We stand in solidarity with protests in response to the murder of George Floyd by the Minneapolis police, and call for the officers responsible to be held accountable. **Along with the below statement of support for their protest, we demand that NYU immediately terminate all relations with the NYPD, an institution that enacts the same violence and upholds the same white supremacy in our own city.**

[NYU maintains many connections with the NYPD](#)¹, including through its own public safety office, its relationship to real estate development around the city, its use of NYPD to harass and displace houseless people around campus, and its fellowships, such as the NYPD Fellowship at NYU Law. The vice-president of NYU Public Safety has said: "Our NYU Public Safety team and our relationship with the New York City Police Department (NYPD) are strong, and our campus is safe." But we remember the murder of Eric Garner—who, like George Floyd, could not breathe—and it is clear that the same institution that murdered these people, along with Sean Bell, Amadou Diallo, Akai Gurley, Deborah Danner, and other members of the city's Black communities, makes NYU more dangerous, not safer. Even in its [enforcement of social distancing](#) during the pandemic, the NYPD has displayed egregious racial bias and discrimination.

We further condemn cultures of racism and anti-Blackness at NYU, which recent incidents have continued to demonstrate. Last fall, a Black student in the NYU Silver School of Social Work experienced an appalling [act of anti-Black racism](#) at the hands of another student, while their professor failed to intervene. This week, screenshots of [anti-Black messages in an NYU fraternity](#) group chat surfaced as a reminder of the pervasiveness of this culture. This anti-Blackness props up the same systems that put Black community members at risk every day in New York City. NYU must take action to address the systemic issues in our own community to ensure the safety of Black students.

We are demanding that police and ICE be banned from NYU's campus in our upcoming contract negotiations, and will work with other campus and community groups to that end. We follow the lead of all those organizations and efforts already pushing for an NYU and NYC free of the structural violence of police and the criminal legal system, including NYU Black Student Union (whose recent statement can be found [here](#)) and NYU Incarceration to Education Coalition, in addition to No New Jails, #SwipeltForward, Survived and Punished, Revolutionary Abolitionist Movement, and FreeThemAll. **NYU community members, please find the full x-campus statement below and endorse [here](#).**

X-Campus Statement Against State Terror and Call for Termination of University-Police Ties

While this is a graduate worker and union statement, we encourage all members of college and university communities to sign in support. Individuals and organizations can endorse the statement [here](#).

We, the undersigned graduate student workers and workers' unions, stand in solidarity with protestors across the country who are out in the streets in response to the horrific murder of George Floyd, a Black man, by the Minneapolis police. We demand that Derek Chauvin, Thomas Lane, J Alexander Kueng, and Tou Thao be held responsible for the murder of George Floyd. We are additionally appalled by the recent murders of Breonna Taylor, Ahmaud Arbery, Tony McDade and countless others. More broadly, we call for an end to police terror and anti-Blackness.

To that end, we demand that our respective universities immediately terminate all of their relations with police departments and private security companies. These policing institutions enact the same violence in our own communities as we have seen this week in Minneapolis, and through these relations our universities support this violence and continue to uphold the white supremacy that is foundational to this country.

The panels and commissions propped up by those in power fail time and time again to understand the needs of our communities, a sentiment expressed by Jael Kerandi, the student body president at the University of Minnesota in the [call for the university to break its ties with the Minneapolis police department](#): "We have lost interest in discussion, community conversations, and 'donut hours.' We no longer wish to have a meeting or come to an agreement, there is no middle ground. The police are murdering Black men with no meaningful repercussions. This is not a problem of some other place or some other time." As workers, we know that change is most effective from the bottom up. It is those who are subjugated by a system set up to protect white privilege and profits who best understand what needs to be done to transform it.

We join UMN students in calling on our respective universities to:

- 1) Break ties immediately with the police departments and private security companies in their municipalities. Police, and their proxies, private security companies, have no place on university campuses.
- 2) Redirect funds divested from policing to provide educational opportunities for communities impacted by police violence.
- 3) Commit resources to support community-led alternatives to policing.
- 4) Propose plans for ensuring the safety of Black and other marginalized students on campus from racial profiling by police and other security forces.
- 5) Issue statements condemning these recent murders.

Although the murder of George Floyd was the catalyst for these recent protests, it was not the sole cause. Black people have been subjected to centuries of state terror, and economic and social exclusion. Those in power have relied on the police to violently suppress the justified unrest of Black people and other marginalized groups. Angela Davis reminds us that: "There is an unbroken line of police violence in the United States that takes us all the way back to the days of slavery, the aftermath of slavery, the development of the Ku Klux Klan. There is so much history of this racist violence that simply to bring one person to justice is not

going to disturb the whole racist edifice.” The current protests reflect concerned members of society taking direct, collective action to demand an end to the abuse and violence directed against Black people.

As workers and union members, we recognize that our struggle is intimately tied to the struggle of protestors. As MLK—who spoke powerfully to the intersection of anti-racism, anti-capitalism, and anti-imperialism—put it: “Injustice anywhere is a threat to justice everywhere. We are caught in an inescapable network of mutuality, tied in a single garment of destiny. Whatever affects one directly, affects all indirectly.” We are inspired by the recent actions of the bus drivers' unions in [Minneapolis](#) and [New York](#) that have refused to help the police round up protestors. To that end, we want to emphasize the role that police unions play in the violence perpetrated against Black communities. We therefore additionally call for unions such as the AFL-CIO to break ties with all police unions.

Individuals and organizations can sign the statement [here](#).
