**Death of the American Dream: The American Dream as many knew it has all but been destroyed, first after our defeat from the fascist powers, and second when these puppet states fell. Now America is nothing more than several squabbling warlord states fighting for what's left, poverty, death and**

warlordism are the rule of the day, may we pray that one day our nation will rise again.

**In Conflict:** Provisional Midwestern Republic

**Minister:** Revillo P Oliver

**Nat Spirits:**

**Beheaded Administration—As our Republic has descended into crisis, many popular figures in our government have turned their tail and become warlords. The current administration is a collection of sycophants mad enough to serve the sinking ship the Republic finds itself in.**

**Divided Army - The Republican Army once stood as a force to be reckoned with on the American continent now it is a shell of its former self with only a few loyal divisions being propped up by National Guard and loyal militia formations, We need to carry the standard we once held to be able to unite America.**

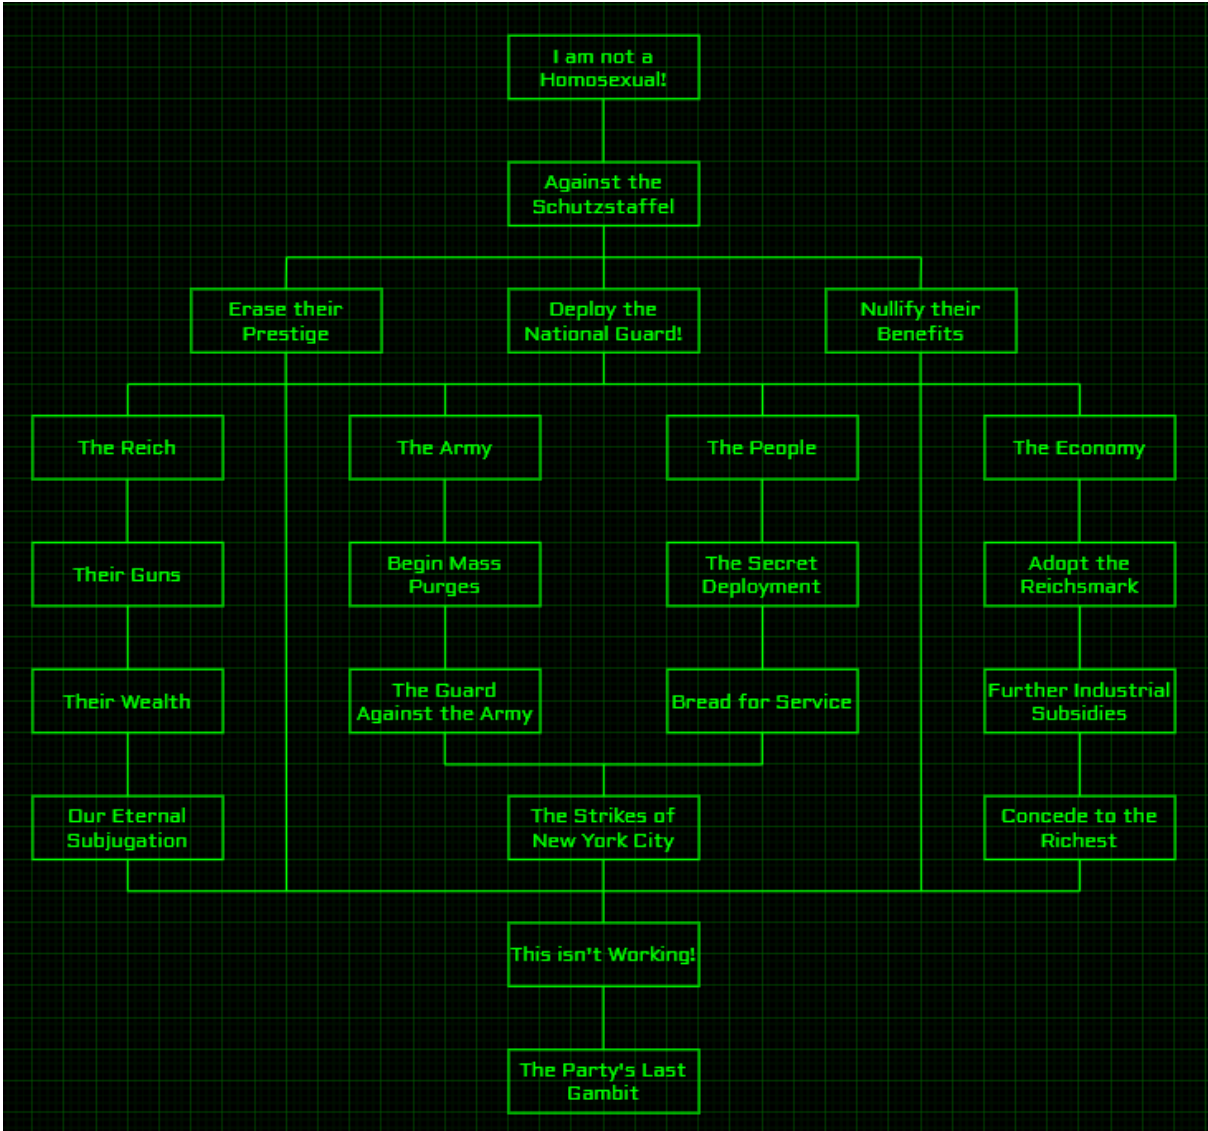

**The Esoteric Melting Pot - While we thought we were safe from the ramblings of the Esoteric Clique it seems that they've struck while the iron is hot and began to challenge our authority, we must deal with these maniacs once and for all or risk our nation falling prey to their depraved agendas**

**The Hermit Kingdom - While we control most of the industrial heartland which is vital, our Authority doesn't stretch further than DC, in our constituent states, local commanders and factory owners practically rule the roost with only a promise to follow our orders, if we are to bring the rebels into the fold we must regain control of our Republic**

**Minister: Matthias Koehl (Esoteric Nazism)**

**Nat Spirits:**

**American Nazism:**

After years of failure we have finally broke free from Johnson's sinking ship, Commander Rockwell has embraced a new ideology that seeks to offer a better solution to the American people, National Socialism as we know it is fitted towards the people of Germany not America, but Rockwell has set the record straight even if some in our government seek to change the path our nation will take.

**American Settlements:**

The vast fields of the Midwest have bore fruit for us to resettle Americans to create a true American Republic, families and workers have been sent to these farms to work and create small communities, while this has

massively increased our food stocks, these settlements are poorly defended and becoming a logistical nightmare

#### **The Stormtrooper Problem:**

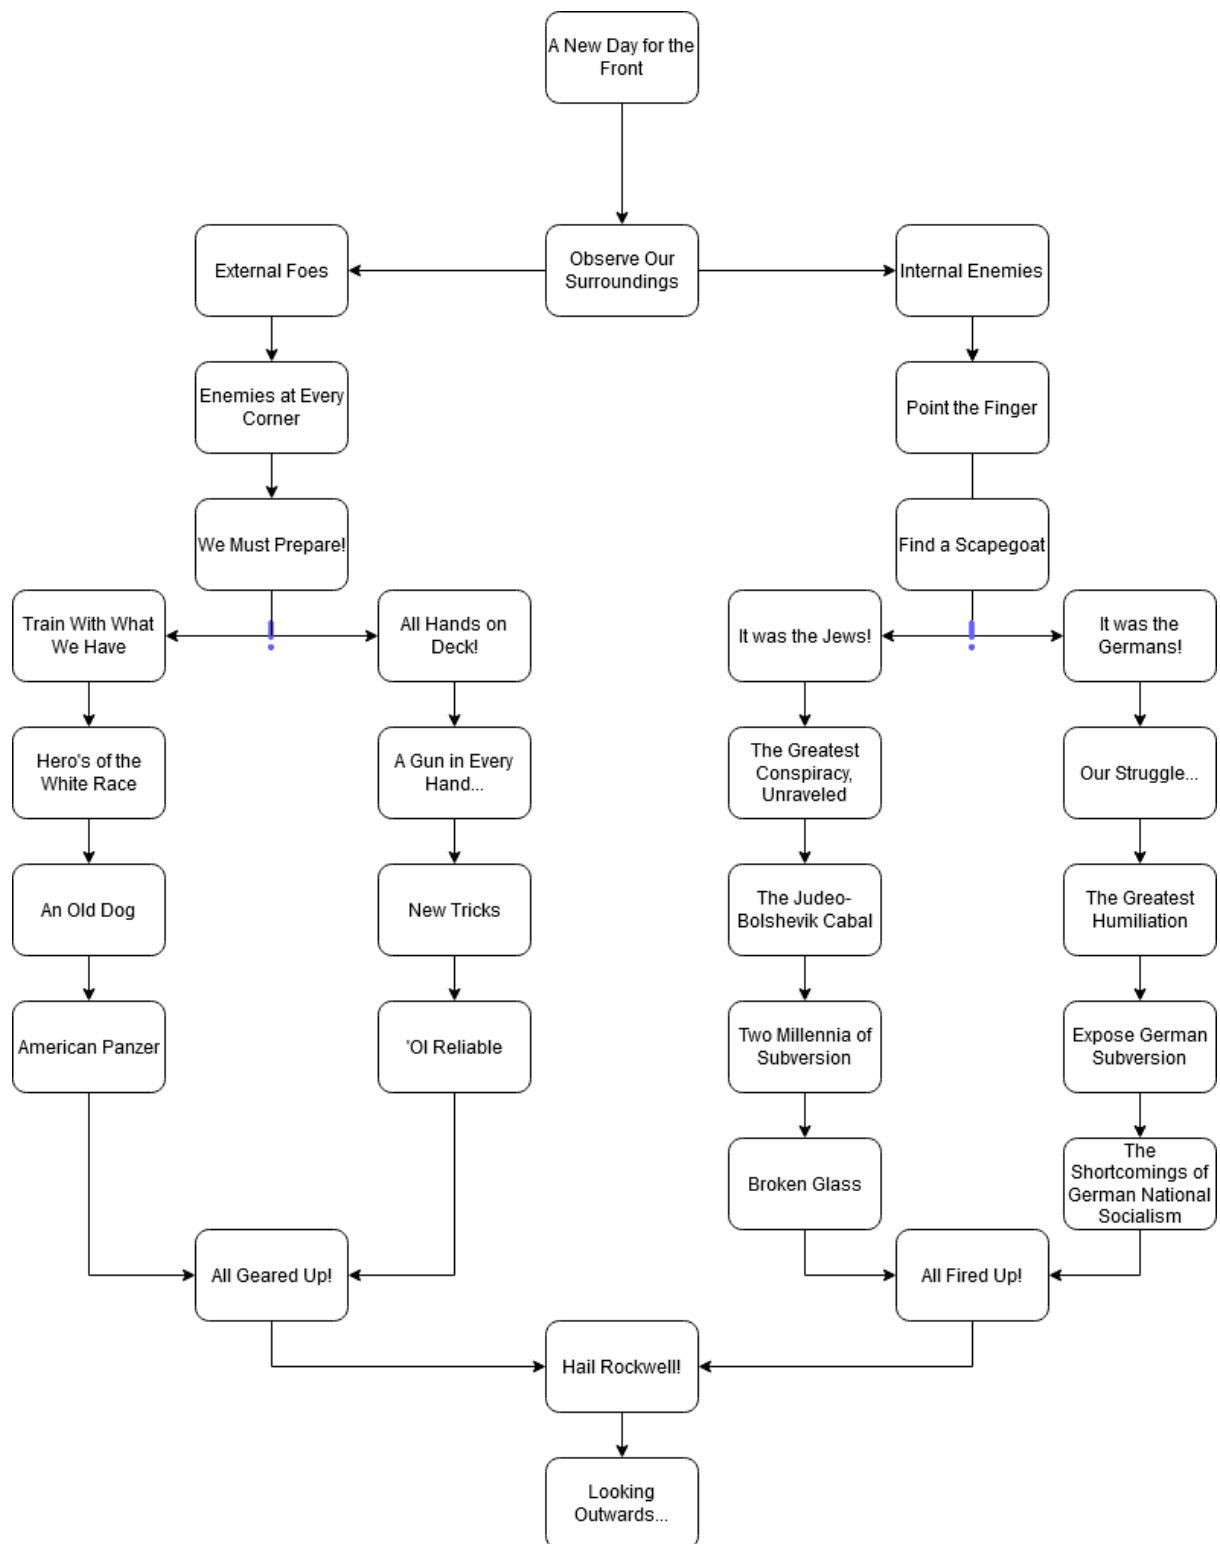

The Stormtroopers are the elite of our army, while they have been a great Boone to our rebellion against Johnson they are rather unruly, J.V Morgan has begun to shift the Stormtroopers from being an elite formation to a rival political force challenging Rockwell.

#### **SS Washington**

: While the SS has split into several legions serving whoever they choose Mattias Koehl has although been a loyal supporter of Rockwell has not been the most loyal ally, Koehl and his SS still are in contact with Madole and his Aryan cultists and regularly meet to exchange goods and intelligence, we must not let the Midwest fall to these fanatics, the SS must be reined in or else...

**Faction: N/A**

**In Conflict: N/A**

**Minister: James Mason**

**Nat Spirits:**

**Aryan Cult: Our sacred Order is built upon one thing and one thing alone, the rule of the Aryans. The SS loyal to Madole have created what is being called an "Aryan Cult" an aristocratic ruling class who control a lot of our state, while their guidance is needed it has caused a disconnect between the common people and the complicated and bureaucratic red tape that smothers our order**

**Backwards Economy:**

**The Church of Satan: One of the biggest groups in the Order is the Church of Satan, led by Madole's friend Anton LeVay they have become increasingly influential in the occult sphere of the Order with their teachings mixing with our aryan doctrine**

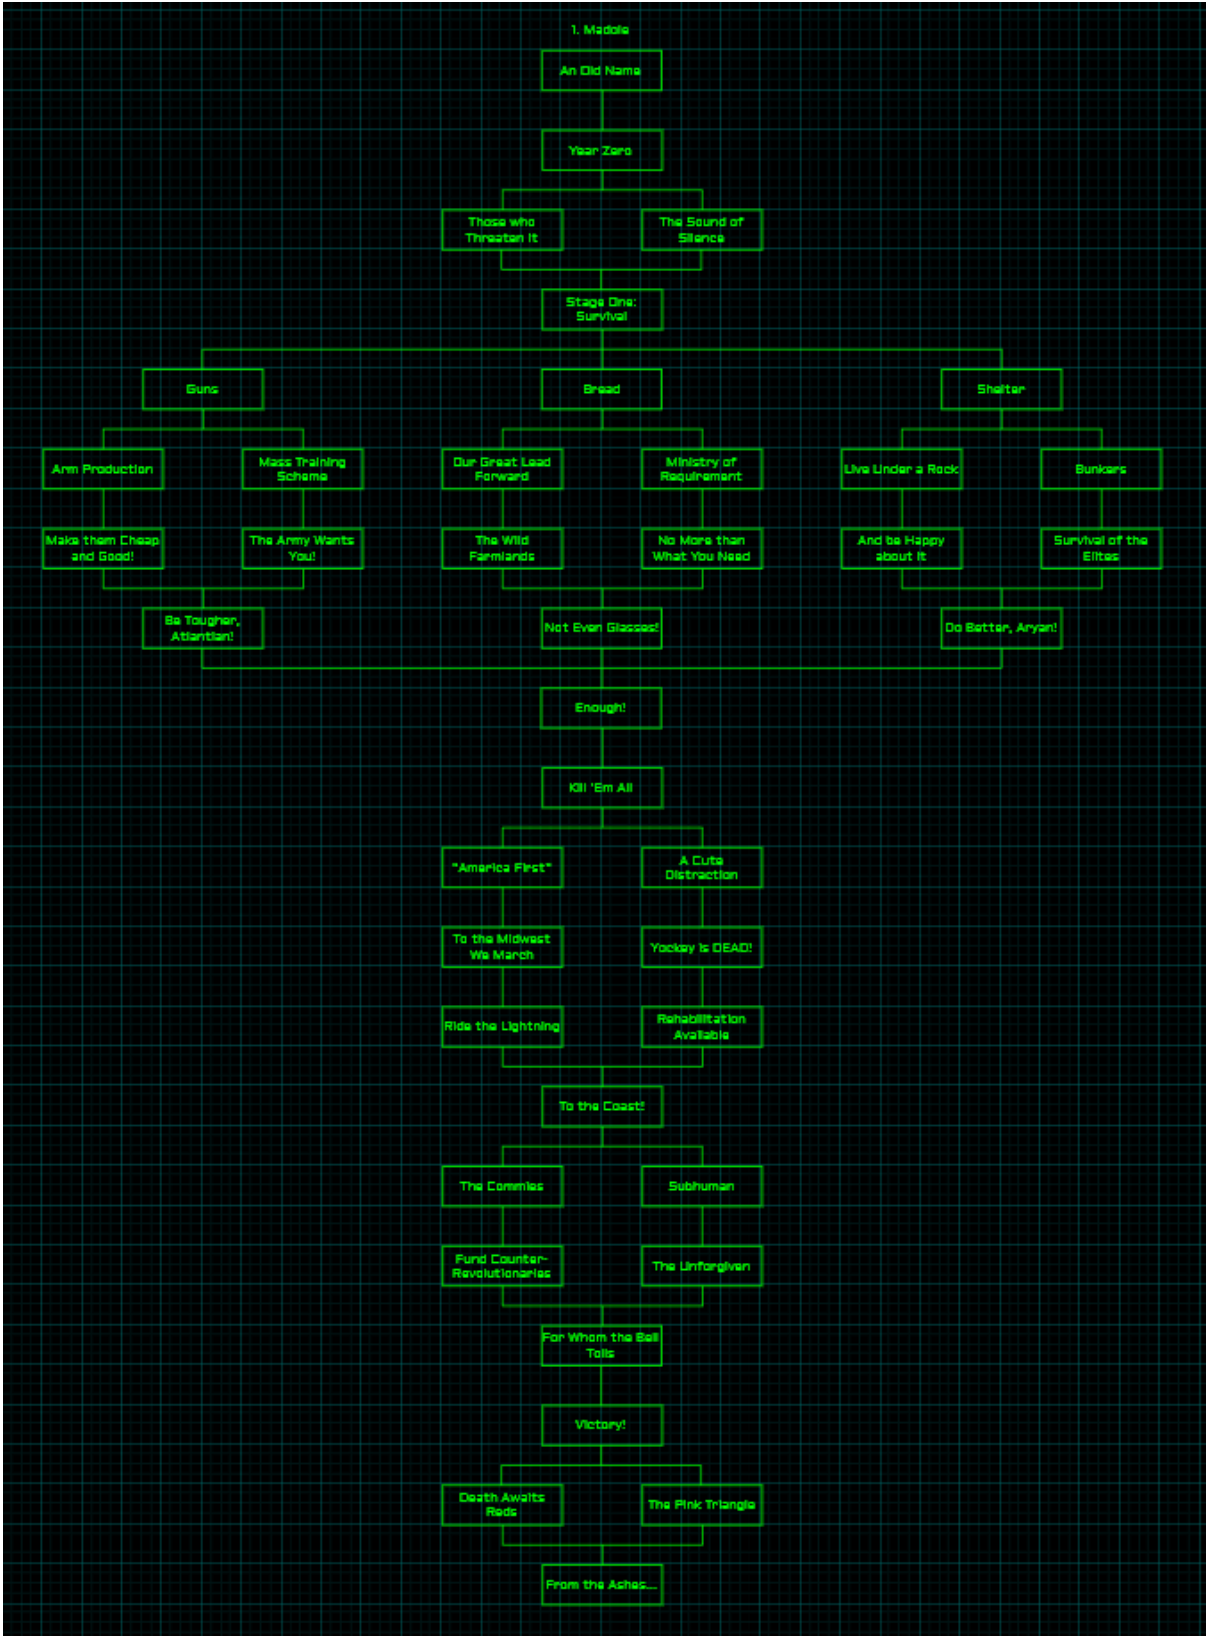

**The State of the Aryan Guard: Our Stoic Defenders The Aryan Guard has become a great asset to local defence although many of our units have become nothing more than esoteric occult militias wandering the landscape, we must reform the guard if we have any chance of uniting America**

**Nat Spirits:**

**“Real National Socialism”:** For years the Free American Republic has rotted from the inside, and years of corporatist meddling and pandering to Germany have led the American people astray, we must set it right, to achieve the real National Socialist dream we must sacrifice we must struggle but only then will we triumph!

**The Yockey Legacy:** The late great Francis Parker Yockey has lit a flame, his revolt against the broken system inspires our every action, but many in our state imbue him with romantic power and want to see his more esoteric ideals implemented into government, we must concentrate on the task we face ahead of us not about the needs of the Western Superculture

**The Vanguard Army:** Our Army while at its core full of loyal SS Men is now nothing more than a patchwork of Vanguard militias and Freikorps formations, to

**Boost Popularity of Christian Socialism: +50%**

Jim Jones is more than a man to the people of Louisiana, he is a mentor, healer and to some even a god. With his fiery sermons and elaborate powers he has convinced thousands that he will save America from the den of heathenry and warlordism that it finds itself in. But Jones, although being the figurehead of People's Temple, is beginning to become an autocrat to his congregation. Hopefully with men and women will share the power in this People's Temple

**Defence Bonus: +40%**

**Attrition: -20%**

The Red Brigade is the glue that keeps the People's Temple together apart from Jones himself. The Brigade help defend against any heathens who would dare to march into our Garden of Eden. But the Red Brigade is becoming less of a People's Militia and more a goon squad for Jones to silence dissent from without and within...

**Socialism with a Christian touch**

While Marx said "Religion is an opiate for the Masses" For the People's Temple Socialism and Christianity have been developed a symbiosis but this does not come without it's problems, the agenda of socialism is pushed a lot more than religious rhetoric and this has angered the more conservative branches but on the other there are those who believe real socialism has not been achieved. We must find a compromise for both or risk a split in the congregation.
