

Audio Books

AUDIO BOOKS: Listen to books or reading material in audio format while reading a physical copy.

REVIEW

- Review Audio Books video
- Review additional resources
- Decide how you will apply this strategy

PREPARE

- **Gather Materials-** sign up for the audio book libraries of your choice
- **Seek Support-** Ask your teacher, tutor, parent or peer for support as needed.

APPLY

1. When you are assigned a book to read at school, check to see if the book is available in the audiobook libraries in the [additional resource list](#). Start by checking the free libraries first.
2. Once you find the book, adjust the speed to ensure it is not going too fast or slow for you.
3. Try and read the physical words as the audio is playing to help you get better at reading.
4. You can also read other uploaded documents or material not in an audiobook library with other text-to-speech resources such as [Natural Readers](#)

REFLECT
