

I went fishing and we said  
“Dad you forgot to bring the  
wet towel.”

If you have a big fish you have  
to put it back in the water  
because it might be pregnant.

*Calaise*

Me and my dad set the boat. We were sailing for ages. The whole time we were waiting for a fish. We caught a fish. My dad picked it up with a wet towel and we measured the snapper and it was too small and we put it back with a salty wet towel and none of the scales came off.

*Monique*

I went to the  
beach and I saw  
a fish. It was a big  
fish.

*Joshua*

I went fishing with my dad and my mum and my sisters. My dad caught the fish. We had fish for tea. I have got my life jacket.

*Evo*

When we go fishing we have to bring a life jacket and a wet towel. I caught a snapper. It was shimmery but it was too big. My dad said to throw it back but I said “No!” And he said “Why?” “You have to put it in with a wet towel and don’t **throw** it in, put it in.”

The boat shook and my dad did not do anything. I said “Get your life jacket on now.” And he did and I did. We fell into the water. It was cool. Now my dad knows to bring a wet towel and a lifejacket.

That was yesterday. Now we are going again. When we went fishing we saw a seagull. The seagull came swooping. It got our bait. After ten minutes we saw another seagull and I got the water gun and I shot the seagull. Then it went away.

I like fishing especially when I catch a fish.

*Aurora*

Fishing for the future. You swing your rod out into the water.

I went on a fishing boat with my dad. I need to wear a life jacket to keep safe.

*Jacob*

I went fishing off the Opononi  
wharf with Whaea Lee and  
Matua Justin.

We didn't catch a fish but I  
helped cut some bait. I had fun.

*DannaMarie*

When I was on a boat I put my life jacket on. Then after I put my life jacket on there was a fish but it was too little. But if you see a seagull you must squirt it with a water gun. If you don't then they won't fly away well...

Don't chuck plastic out otherwise the birds will eat it and then they will die. If you catch a fish get the fish ruler to measure it and pick it up with a wet towel.

*Morgan*

On the holidays we went to catch some dolphins and I put on my life jacket and we caught a dolphin. A big one in the water and it was shimmery. We saw a lid in the water and seabird that ate the lid. We put water on it with a water gun and it went away.

*Harleen*

On the holidays my dad and my mum are going on a boat. They are buying a life jacket and if they see a seagull my dad will throw water at it. I am going with them so I can see if we get any fish.

And buy ice water and if you see a shark swim back to shore or else you will get eaten from a shark. But be careful, it might not be a shark.

And when you see a jellyfish too.

And when you get fish you will feel happy.

It might be your first time and if you get four fish I will be happy at you.

*Yozarna*

Come to fishing  
with me.

*Chazzee-Jay*

I went on a boat to catch a  
snapper and it was big. I  
put it back in the water  
because it was too big.  
I went to the beach and I  
caught a starfish.

*Jordan*

On the holidays me and my dad went fishing and we caught a big snapper but it had babies and my dad didn't chuck it with a wet towel and I said "You have to chuck it with a wet towel" and my dad did and it was huge.

My dad said " I want it" and I said "You can't have it because it has babies." And my dad said "Who cares!"

*Te Arai*

When me and my mum and  
my dad were going fishing on  
our boat my dad caught a fish.

*Luke*
