Front-end Software Developer

If you're drawn to the dynamic world of entrepreneurship and startups, Startup Greece offers an ideal environment for you to flourish. Here, your passion for innovation and your entrepreneurial spirit will find fertile ground, as you collaborate with like-minded individuals and contribute to the vibrant startup ecosystem.

Position Summary: As a Front-End Software Developer at Startup Greece in partnership with tech Startups from our ecosystem, you will play a crucial role in developing new user-facing features for our platform. Your expertise in front-end technologies and problem-solving skills will contribute to an inspiring user experience and enhance the performance and scalability of our applications.

Key Responsibilities:

- Build new user-facing features for our platform, ensuring they align with the UI/UX design and meet the highest standards of performance and scalability.
- Develop reusable code and libraries that can be utilized for future projects, promoting efficiency and consistency in our development processes.
- Evaluate and ensure the technical feasibility of UI/UX designs, providing input on any potential challenges or optimizations.
- Optimize application performance to achieve maximum speed and responsiveness, enhancing user engagement and satisfaction.
- Implement robust user input validation mechanisms to ensure data integrity and security before submission to the back-end.
- Contribute to the continuous improvement of our software architecture to deliver an exceptional user experience and foster innovation.

Requirements:

- Proficiency in markup languages, including HTML, CSS.
- Strong experience in client-side scripting with JavaScript, such as jQuery and AJAX.
- Proven experience as a front-end developer/engineer, with a track record of delivering high-quality solutions.
- Ability to write performant code, ensuring optimal application performance.
- Understanding of design patterns and their application in front-end development.
- Proficient understanding of cross-browser compatibility issues and techniques to overcome them.
- As an advantage experience in AGILE or Bootstrap framework.

Performance Objectives:

- Successful implementation of new user-facing features that meet UI/UX design and performance standards.
- Continuous improvement of software architecture to enhance user experience and platform scalability.
- Collaborative contribution to the development of innovative product features with cross-functional teams.

Key Performance Indicators (KPIs):

- Quality and functionality of newly developed user-facing features.
- Application performance metrics, including speed and responsiveness.
- Positive feedback from cross-functional teams on collaboration and contribution to product development.

Our Offer:

- Opportunities for self-responsibility and decision-making.
- Work in a young international team.
- Flexible timetable to accommodate personal needs.
- Participation in events and NGO meetings.
- Regular feedback and mentorship.
- Experience and knowledge sharing opportunities.
- Training on various subjects and programs to enhance skill set and professional development.

Additional Information:

The minimum duration for an internship is three months, with a maximum of twelve months. However, we highly recommend interns to consider staying for a period of four months or longer. This extended duration allows interns to immerse themselves fully in our operations, gaining a comprehensive understanding of our work before concluding their internship.

Interns should currently be enrolled in a bachelor's or master's program at a university, or have completed their degree within the past year. Please note that interns are required to bring their own laptops. Kindly be advised that **this internship is unpaid.**

At SG we are proud to have Diversity and Inclusion at the center of everything we do. We are committed to Equal Employment Opportunity regardless of race, color, national origin, ethnicity, gender, age, disability, sexual orientation, gender identity or religion. For more information on
