

Not done (all colours except for this one)

Done

Crucial

Major

Optional

Probably won't be needed

- Most Important
 - MAKE THE PLAYER ABLE TO DIE
- Browser support (WebGL port)
 - Removing unnecessary assets and code for that build
- Movement speed
 - Same speed in every direction
 - Speed Increased, or tweaked
- Spawn rates
 - Initial spawn bunch
- Perspective
 - More free and maybe more above the character
- Implement music
 - Hire a Michael
 - Different versions of the same song for different areas
- Do something about the camera lock
 - Hold alt to move camera freely
- Enemies swarming up in a bunch
 - Having them either: Not follow when another enemy is already following; or try to stay away from one another
- Speed up gameplay
 - Spawn-rates up, enemy cap down
 - Bringing your recipe-book along
- Actually make cooking work
 - Assign recipe completely and stuff
- Clearer controls
 - Buttons in places
- Animations
 - All enemies gets an animation for walking
 - Enemies falling over / Breaking when dying
 - Cleaner and swifter fighting animation
- Forest rotation
 - Make the script more effective and accurate
- Fleshed-out combat
 - Knockback
 - Dashing/dodging

- Animations
- More responsive combat
 - Clearer visuals
 - Audio
- Weapon range
- Smoother information curve
 - Tutorial stage
 - Signs with enemies on them for the different areas
- Cooking being more clear
 - Different UI for cooking, checkmarks for ingredient done
 - Make it clearer how you switch recipes, alternatively make it so that only the right recipe is shown
- Pause menu
 - Tutorial in pause menu
 - Settings for cam speed and volume
- Cutscenes (?)
 - Yes
- Audio
 - Mr. Moneybags voicelines
 - This requires a rating system, at least for him rating the food
 - Time it took to cook (inspired by rival)
 - Ammount of wrong enemies killed (inspired by rival)
 - Different foods
 - Tutorial
- Background music (Anropar micke)
- Enemy noises
- Weapon noises
- Multiplayer?
 - Server support
 - Player distinguishment
- Re-make all current enemies (besides the Avocado-frog) so that they're a mix between an ingredient and an animal
 - Carrot-bunny
 - Potato-bear
 - MilkCarton-calf
 - Egg-hen (not with a hen head though since the current egg face is iconic)
 - Butter-snail
 - T-bone-cow
 - Pepper-skunk
 - Salt-cat
