GUSTAVUS ADOLPHUS COLLEGE

Tech Bytes ~ Get your class actively engaged by using Student Response

Agenda

1. Turning Point Technology Clickers

A clicker is an audience response device as small as a credit card. It allows you to participate actively in class lectures. You will be able to provide real-time feedback to your instructor, who in turn can offer you graphical displays of the class' responses. Thus, you'll see a good indication of your progress and what you need to review.

- Cost - Free. We have clickers that can be checked out of GTS.
- Devices - laptop using MS Powerpoint, receiver for teacher and clickers for students.

2. Socrative

A cloud-based student response system that empowers faculty to engage and assess their students through a series of educational activities and games. Socrative is designed in such a way to help faculty make classes more engaging and interactive with real time questioning and instant result aggregation and visualization.

- Cost - Free for up to 50 students/responses
- Devices - laptop through browser, ipad, phone. Apps available here: http://www.socrative.com/apps.php
- Website for teachers - https://b.socrative.com/login/teacher/#register-teacher
- Website for students: - https://b.socrative.com/login/student/
- Practice Quiz ID - UJSENGEAY

3. Kahoot

Provides educators and students with a trusted learning space where educational content is delivered by asking meaningful questions in real-time, creating a social, fun and game-like environment.

- Cost: Free
- Devices: any device but only through a browser window. No apps currently.
- Website for teachers: https://getkahoot.com/
- Website for students: https://kahoot.it/#/

4. Poll Everywhere

Poll Everywhere is a powerful and fun web-based student response tool. Instructors manage questions via a simple web interface, and students can respond via web browsers, smart phones, or text messages.

- Cost: Free for a non-profit account
- Devices: any device but only through a browser window. Cell users can also text in response.
