

## **Standing Next To Me**

Want her?  
Have her  
Two years  
Have gone now  
But I  
Can't relate to the never ending games that you play  
As desire passes through  
Then you're open to the truth  
I hope you understand

And your love  
Is standing next to me  
Is standing next to me

The one you  
Fell for  
Makes it  
Seem juvenile  
And you'll laugh at yourself again and again  
And we'll drink to the thought  
She'll remember you  
Maybe tomorrow

And your love  
Is standing next to me  
Is standing next to me  
And your love  
Is standing next to me  
Is standing next to me  
Is standing next to me  
Is standing next to me

Want her?  
Have her  
Two years  
Have gone now

But I  
Can't relate to the never ending games that you play  
As desire passes through  
Then you're open to the truth  
I hope you understand

And your love  
Is standing next to me  
Is standing next to me  
Is standing next to me  
Is standing next to me
