The Liberty Party shall elect a Chairman by direct vote. The Chairman shall operate all party activities.

If there is a call for a vote of no confidence, it must be seconded. A vote must then be held; if it passes, another election for Chairman shall be held.

All votes and elections shall be operated on a Google Form. All votes must have a confirmation and may not be anonymous.

An amendment may be proposed by anyone in the party. It must then be seconded by another member, and a vote held.
