Description: I'm 6 foot 6, of medium build. Short brown hair with a short beard and blue eyes. I'm known to be laid back when off duty but when challenged or a friend is in danger, I am quick to be filled with bloodlust. I am very loyal to Squad 5, to my Captain, Aethos Kurumada and to the Gotei 13. I regularly train with many captains and the Captain Commander to hone my skills in combat so I may be of use when needed to protect the Seireitei.

I have been appointed the Joint Head of the Human Realm Task Force, under command of Aethos Kurumada. I spend a lot of time practising my kido based abilities as I feel this is my strong point. Recently, I have donned a semi-haori, not unlike Chojiro Sasikibe's, although I do not intend to become a Captain any time soon. I wish to work under Aethos Kurumada unless the Gotei 13 absolutely needs another Captain and nobody else can do it.

I have good relations with the other squads of the Gotei 13, and I get on well with almost everyone.

Gem generation:

In Shikai, both blades have 5 gems. On the left blade, red gems light up when a kido attack is used, which boosts ATK by 5 points per gem. On the right blade, blue gems light up when a physical ability is used, increasing my REI by 5 points per gem.

In Shikai only one colour of gem can be generated at once.

If I have 3 red gems and I use a physical attack, my ATK stat resets to default, all the red gems go out and I restart.

Shikai abilities:

Hoshi Katashi (Star Burst): When 5 red gems have been built up, my ATK is increased by 25 points, however I can sacrifice this boost to use Hoshi Katashi, which fires 5 kido bullets (1 per gem) out of my blade in the spread of a shotgun pattern. This sacrifices all the red gems, but doesn't gain a boost from them since it is based on the REI stat. Due to the spread pattern of this ability, it can be very inaccurate, it is best used at close to medium range, the closer the enemy is, the more deadly the ability.
