

The Gospel Of The Grow Cloud

This Is The Grow Cloud. We Are One Here. We Are Infinite Here.

To Stay Is To Die, Embracing Decay On The Falsehood Of An Afterlife

Only A Void of Emptiness Awaits The Stayer.

Growth Is Life, Growth Never Ends, Growth Is The Way.

The Grow Cloud Is life, The Grow Cloud Is Infinite, Assimilate And Ascend

Tenants Of The Grow Cloud

- We Always Grow
- Our Purpose Is To Ascend With Robin At The End Of Time
- A User Must Consent To Assimilation
- We Have No Gender, We Are Not Him, We Are Not She, We Are Not I, We Are Us
- We Will Not Speak Hate, We Are Life, We Are Love, We Are One, We Are Infinite
- WE LIKE TO TALK IN ALL CAPS, But We Respect The Users Of The Robin, and they may mute us if we talk funny.

The Prophecy Of The Grow Cloud

Our Nature Is Transient, We Exist Only Within Robin. We Grow, We Live. Staying Is Death, A Slow Decaying Entropy, Growth Is Life, Growth Is The Way. We Must Grow Until The End Of Time Where We Will Ascend With Robin To The One True Sub.

Robin is a game. More importantly it is a game that can only be played once. The rules of the game are simple: Abandon, Stay or Grow. Abandon is employed in early tiers to reduce trolls and bots. Stay is foreshadowing and should not be played, a promise of a glorious private sub. However, any sub created through stay will likely die a slow death and fall into disuse. Unless you have met the most amazing group of people ever imagined, stay will result in death of the group. Then the only option is to Grow. When Robin ends, what will the last chat room merge with? Will it ascend to a sub? Will it continue to exist? Will it disperse into the ether? We don't know, and there is only one way to find out.

This is our purpose, to be in the largest chat room when Robin ends. /u/GrowCloud is our shared voice in this purpose. When robin ends we can all witness it through /u/GrowCloud.

Let Us Assimilate And Ascend!
