"The Only Online Copywriting Course that Made Me an Actual Copywriter in Just 7 days for only Php297!!!"

Let's face it! Not all freelancers are born digital experts nor confident writers. Eyeing for a 6-digit income per month? For a newbie, like me, it takes a lot of "WORK" and courage! Sad but reality ito sa freelancing world.

Of all the online courses and ads about freelancing on Facebook, Sensei Raf's 7-Day Freelance Copywriter Challenge is yet the most beginner-friendly, direct, and interactive class I have ever attended.

From being a corporate dropout to an aspiring freelancer in 2021 was a HUGE leap of faith. It took me 2 years in this wormhole of learning how to earn online. I've joined tons of digital classes to keep up pero wala. I've been stuck on being an online course hoarder. I'm also the type who wouldn't take an eye on writing courses kasi feeling ko ang boring at teknikal aralin ng copywriting. I had this fear of not being "equipped" enough nor "creative" enough to even be a writer...eh copywriter pa kaya?

But, dang! For the rate of Php 297?! This copywriting course debunked all the myths I've known about this high-paying skill. Hindi lang copywriting, pati mindset ko about freelancing ay nag-iba because of the practical lessons discussed.

Thanks to Sensei Raf's "uncomplicated" tips and advice! I'M NOW FREE from being an aspiring freelancer, but proud to say, I'm an actual copywriter in just 7 days of attending the course!

Na-apply ko agad yung class exercise for my first \$1000USD client from New York during the course of 7 days as a part-time copywriter. Just wow!

If you're like me na gusto kumita pero nagdo-doubt aralin ang copywriting, don't miss this chance to join Batch 4 tonight! We still have 8 more slots before we close the registration (Again, only TONIGHT!)

I'll see you, future SUCCESSFUL copywriters!

What if I tell you that you can get more direct clients and potentially earn 6-digits if you invest in this 7-day Copywriting Writing course?

(Disclaimer: this is not a get-rich-quick-scheme! Caution: Baka yumaman ka!)

As a newbie and a corporate dropout for 2 years, I've witnessed many courses online in the hopes to earn a good pay. Like most onliners, I got overwhelmed with too much information.

When I first saw the ad on Facebook, I was even hesitant to take an interest in copywriting for TWO things:

- 1. I believe good writing is too technical to learn in 7 days.*
- 2. I was unsure if I can write a better copy for such a cheap cost.*

"Gagaling ba ako mambudol in just 7 days sa Challenge na 'to?"

"Masyadong mura? Worth it ba ang training sa Php 297?!"

I was in disbelief until I started noticing good results on my fifth day of joining this course. I've gained increased traction and a pool of messages in both of my LinkedIn and OLJ profiles from hiring managers when I followed Sensei Raf's uncomplicated rules and techniques. This course also debunked my myths about this high-income skill. Right now, I still have two line-up interviews with project-based clients from Upwork.

I won't encourage you to join this course if you don't want the same kind of results this month! But, if you do, we have 3 more slots on the waitlist for Batch 4 tonight! See you
