Quirk Name

Cat

Type

Mutant/Transformation

Explanation

Cat gives Elise cat ears, a tail, and claws. She also has the ability to turn into a cat.

Strengths

↗-°◌✧★ *This quirk makes Elise more agile than most, and she has impeccable balance*

↗-°◌✧★ *Her hearing and eyesight are also boosted by this quirk, giving the ability to see in the dark*

Weaknesses

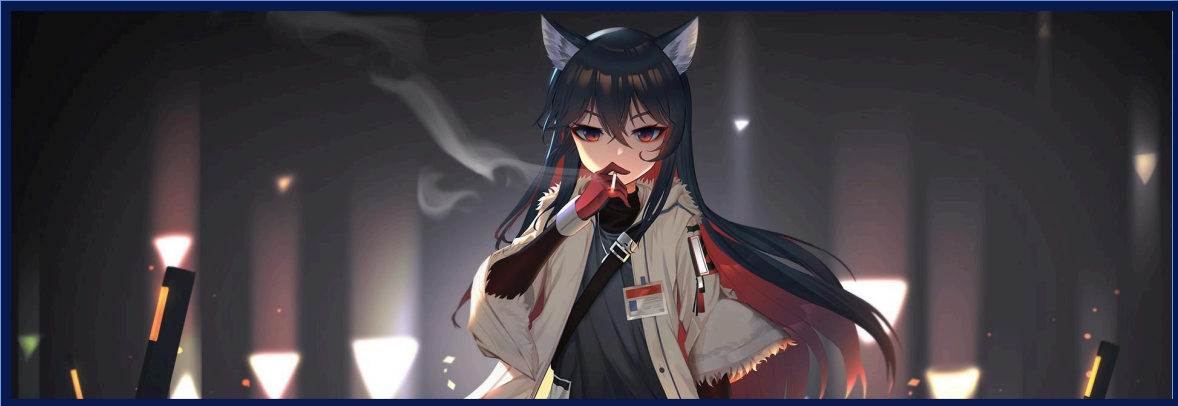

↗-°◌✧★ *This quirk affects her, so she's pretty screwed against long or mid-range quirks*

↗-°◌✧★ *when transformed she's the size of a normal cat, giving no extra bonuses other than speed and becoming a smaller target*

Other

^ cat form

Fun Facts

- ✧-°◉✧ *she's from germany*
- ✧-°◉✧ *wants to see the stars*
- ✧-°◉✧ *Epsilon had her change her name when she'd gotten to Japan, her name was Elara Vega*

Headcanons

Backstory

Elise grew up in the world of astrophysics, where her parents were renowned for their groundbreaking work in Germany. As a child, she formed a close bond with the CEO's son, Epsilon, who shared her love for science. However, the once inseparable friends took different paths in adulthood. Epsilon's secretive nature and strange experiments raised suspicions among their colleagues. When people started disappearing from the labs, Elise's parents began questioning Epsilon's motives. They'd done their best to convince their daughter to step back and look at him again, but she'd refused.

Epsilon's manipulative ways led Elise to Japan, where he subjected her to years of abuse and forced her to participate in horrifying experiments. Despite the trauma she endured, Elise managed to escape his clutches and has vowed to seek justice for herself and others who suffered at his hands.
