

Here's the deal:

I'm looking to work with a handful of coaches this month to help them convert more of their offers from their email lists with a simple 5 email campaign.

With this simple email sequence in place...

You can stop running your wheels and wasting time on creating content, commenting on social media, or writing emails that don't help you to increase your businesses' bottom line.

First...we'll see if we can generate more revenue from your existing email list.

And if it works...

Then we can explore more ways to increase revenue from your existing assets, like your social media audience.

So far I've helped coaches...

Like Anthony Murdock II...

A business coach for black entrepreneurs who was able to generate 18 leads, with 5 conversions resulting in \$1300 in sales for just one of his higher ticket offers from a smaller 1,923 email list.

Like Bruce Ross...

A high-performance leadership coach who gained 31% more registrations for his webinar, where he promoted his high-ticket 1 on 1 services on the backend.

This simple campaign generated \$8,950 in sales for his 1 on 1 coaching services.

If you'd like help getting more clients for your course, mastermind, or webinar...

I offer a ***Risk-Free Email Test Campaign.***

But this test won't be free.

From my experience, people don't value free.

Here's the investment:

All I require is a \$500 deposit to run this risk-free email test campaign.

I'll write you 5 emails to see if your email list has the potential to convert into more sales for your program.

And if you don't make at least the deposit back from new sales...

(Especially if the investment of your program is priced above \$500)

Then I'll refund back the money for the deposit and we can go our separate ways.

I just want to make sure that we both have skin in the game.

If this is something that sounds interesting to you...

Just email me at destrie@freestylecopywriter.com
with the Subject Line: **Test Campaign**

I'll ask a few questions and if I can help, we'll hop on a call and take it from there.

Til next time...
