

8th Grade Math 2025-2026

Hello!

My name is David Boaz and I will be your student's math teacher for this school year. This sheet is just a quick rundown of what your student needs, what we will be covering, and what the expectations are for each student in the classroom.

Student needs for Coach Boaz's Class:

- Pencil (EVERY DAY)
- Journaling notebook (will be kept in class)
- Charged Chromebook (provided by school)
- WIRED headphones
- Notebook paper

Grading Policy:

My grading policy is in line with the school policy on grades:

- Any missing work must be turned in before the end of each 9 week period. Any missing work not turned in prior to that period will not be accepted. Those deadlines are October 8th, December 17th, and March 30th.

This class is broken up into 5 Modules:

Module 1: Investigating Expressions, Equations, and Inequalities

Module 2: Modeling Linear Relationships & Functions

Module 3: Analyzing Data & Systems of Linear Equations

Module 4: Exploring Irrational Numbers & Powers

Module 5: Exploring Geometric Relationships

Expectations:

The expectations for this class are simple: we all show up and we all do what is expected of us and the year will go smoothly. I do not give any work that is expected to be done as homework, however, if a student does not use their time wisely any classwork that is not finished within our allotted 100 minutes needs to be completed outside of class. I will also share my slideshow with classroom rules and routines via parentsquare. If there are any questions please do not hesitate to reach out to me via email davidboaz@floydboe.net or via parentsquare.
