Agenda Book <i>NOT Available for Purchase at EMMS</i>	1 each	1 each	1 each

NOTES

-EMMS highly encourages families to consider purchasing zipper binders rather than individual binders.

-The TI-84 Plus Silver Edition or CE (handheld) graphing calculator will be used in Howard County mathematics courses beginning with Algebra 1 and extending through the end of the mathematics course sequence. Students will be provided with a graphing calculator for use in school and have the ability to borrow one for out-of-school use. Families may opt to have their own personal handheld graphing calculator (though this is not mandatory). Students who go on to take mathematics courses in college will often be able to use the same calculator in the future.
