

What's up Logan,

Big respect for your IG story, the true fulfillment doesn't come from chasing numbers, it comes from changing people's lives.

You've changed a lot of lives through your courses, but there's a lot more out there to change.

I made a research sheet with **real quotes** from your ideal Dropshipping customer:

[DOC LINK]

It will help out massively when you're creating DS related content.

Also, I need a few details from you in order to create that killer DS course page we discussed.

Let me know if it's cool to send over the details list so we can get the page up & running.

Always the best,  
Rahath

**P.S**

I'm flexible on the pricing since it's our first project together.  
If you have any objections then let me know & we'll find a way around it.

God Bless
