

I Can Help You ENHANCE Your Advertisement With the Power of Words.

Hi, Wild Earth, I am Mike.

A motivated copywriter

I found your company through ChatGPT searching for pet foods.

I like what you guys are doing for the pet food industry.

Selling high-quality vegan, pet food. You are allowing the customer to improve and prolong their pet's life. I find that very touching.

I believe you guys have unbelievable potential.

I've done some previous research on your top competitors like, Hill's Pet Nutrition and Diamond Pet Food,

Based on the analysis I conducted, I believe I can help you.

For example, write next-level emails, through your mailing list, to your customers increasing sales via short but curiosity-filled texts.

Giving them facts about how vegan food, and how it will positively impact their dog. Which can provide the reader with an increasing desire to buy your pet food.

I've also identified other strategies to help you increase your customers.

If you want to learn more, I'd be happy to hop on a ZOOM call any day after August 1st.

Thank you for taking the time to read my proposal. I look forward to hearing from you.

Best regards

Mike
