

CDA Category:	Digital Element Design
Title:	United We Stand.
Student name:	Riggs Clark.
Where I got my inspiration: (Did you look for examples online? Did you dream it up yourself? Did you use AI for inspiration?)	I used my dad as inspiration because my dad is a Trooper for The Kentucky State Police. (KSP)
Tools/software/app /websites I used: (doesn't have to be a narrative, can be a list)	I used canva and what I used on canva was elements, text.
Creative Process: (can be a list)	My process was thinking about my inspiration, then I experimented with Canva thinking about what I can use to create this digital design. I added and removed a few images before I found what worked best with my KSP theme.
Use of existing content: (Did you use stock photos from a subscription? Did you use another's artwork that you have express permission to use?)	No, I did not use other people's stuff they created because I did not want to go through the trouble of talking with the creator. I only added images that were free on Canva.
