

My head is still young
But couldn't you give me more time?
HATE, LOVE, and swallowed moths
Let's burn it all together

The powder of success pours down
While being unable to see the full moon
This way of speaking has no meaning
So, please drop your weapon

The serow wearing JEANS
wants to talk to the lizard
They're super aloof and a tsundere, so they will never share their secrets

If you gave a BIRD LEMONADE,
he would surely throw up
Clickity clackity on the top of my tongue, I can't turn off the TV

Mr. Monkey is sad
That is me
Spinning spinning around
The world is a hexagon, right?

Me and you,
which is a chair?
The cemetery is brimming with eyeballs
Spicy watermelon, Granny's pumpkin, Mix it up with something or other

Sparkling light,
Nothing but nonsense
The mouse that ate a cat
My story has no meaning
So let's have a party forever

The deer's voice is a little annoying

CHEESE is better
It's too pale, Ripening JELLYBEANS
So, into the future, let's S W I M!!

The powder of success pours down
While being unable to meet your GAZE
This story has no meaning
So, let's say goodbye

Thank you, everyone ♥♥
