## ENGLISH 3 - 2019 SUMMER READING

The summer read this year is *The Catcher in the Rye* by J. D. Salinger. Students will be responsible for finding quotes and page numbers and annotating the book for the two areas below.

Read, analyze and take notes on the following areas:

1. Establish and follow at least one theme of the book.
2. Track Holden's development throughout the novel.

You can easily check this book out from the library, or buy your own copy. You can get used copies on Amazon relatively cheaply. If you check it out from the library, be sure you check it out again for the first week of school.

Be ready to write an essay on the above elements when you return to school and be able to show your notes as well. Have a great summer and enjoy this book about a high-school kid who just doesn't seem to be able to find his way.
