Course Objectives
❖ A broad overview of the opportunities and challenges associated with becoming a school-based technology integrator ❖ Developed an understanding of your own attitudes about technology and how they can influence your success in the role of technology integrator ❖ Explored the technologies presently available and begin to 'play' with the technologies in a way that demonstrates a level of comfort with the technologies and relevance to the classroom. ❖ The ability to speculate on the future – what will your role be, what new technologies are on the horizon, how might these technologies further enhance our students' learning experiences.
Suggested Portfolio Artifacts
❖ Technology Evaluation Matrix ❖ Reflection Paper on Technology in the Classroom

- ❖ Mini Research Demonstration paper
- ❖ Self Evaluation of Professional Growth
