

Bugs & Books

Preschool:

Friday, 4:15-5:15

With Spring come the critters that love the warm weather - insects! This is the class that explores:

- Why do bugs bug us?
- Do bugs have a job?
- What bugs are good for the environment?
- What bugs have a lot of legs?
- And more!

Using illustrated children's books, we'll creep into the world of bugs and find out more about these critters.

Additional Notes about Enrichment:

Parents should expect students to be done with specialized activities and available for pick-up approximately one hour past the listed start time.
