

# 2025 Meeting Topics

## AI Mastermind 2025 Regular Meeting Schedule

---

*Note: Regular meetings convene virtually at 10:00am Central Time. [AI Mastermind | Fletter Consulting](#)*

---

### **January 10: Reflections and Future Thinking**

*A Year in AI: What's Changed and What's Next?*

Reflect on the most impactful AI advancements of the past year, explore shifts in industry perspectives, and discover the exciting changes coming to the AI Mastermind group.

---

### **January 24: Building Blocks: Data as a Resource**

*Mastering Data for AI Success*

Learn how to assess, improve, and leverage your data for reliable, high-quality AI applications that drive real results.

---

### **February 14: People Power: Talent, Teams, and AI Agents**

*Building Teams that Thrive with AI*

Explore how to grow talent pipelines, foster collaboration, and integrate AI agents to enhance your team's creativity and productivity.

---

### **February 28: Tools of the Trade: Technology Readiness**

*Are Your Tools AI-Ready?*

Discover how to evaluate and align AI tools with your strategic goals while identifying and filling gaps in your tech stack.

---

**March 14: Leadership in AI: Governance Strategies**

*Leading AI with Confidence and Ethics*

Uncover the key governance strategies to manage ethical AI use, reduce risk, and ensure compliance in an evolving landscape.

---

**March 28: Current Trends in AI**

*The AI Trends Shaping 2025*

Stay ahead of the curve with a discussion on the latest advancements in AI and their implications for industries and businesses like yours.

---

**April 11: Driving Change: Adoption Frameworks**

*Turning Resistance into Results*

Learn actionable strategies to overcome resistance, engage stakeholders, and drive successful AI adoption in your organization.

---

**April 25: Measuring Impact: Performance Metrics**

*Proving AI's Value with the Right Metrics*

Understand how to define and track success metrics for your AI initiatives, ensuring continuous improvement and measurable ROI.

---

**May 9: Scaling AI: From Pilots to Implementation**

*From Small Wins to Big Impact*

Master the transition from pilot projects to full-scale AI implementation, including budgeting and managing scalability challenges.

---

**May 23: Exploring Generative AI**

*Unlocking the Power of Generative AI*

Dive into the exciting world of generative AI tools, discover innovative use cases, and tackle adoption challenges with confidence.

---

**June 13: Innovation in AI: Creativity and Problem-Solving**

*Driving Creativity Through AI*

Harness AI's potential to solve complex problems, develop innovative solutions, and gain a competitive edge in your industry.

---

### **June 27: Current Trends in AI**

#### *Emerging Technologies That Matter*

Join an open discussion on the latest breakthroughs in AI and learn how they might influence your industry's future.

---

### **July 11: Ethical AI: Balancing Innovation with Responsibility**

#### *Doing AI the Right Way*

Explore how to address ethical challenges, build trust, and ensure fairness in your AI implementations.

---

### **July 25: AI in Action: Use Case Spotlights**

#### *Real-World AI Success Stories*

Hear inspiring stories of AI applications across industries and gain actionable insights to apply to your own projects.

---

### **August 8: Scaling AI: Advanced Strategies for Growth**

#### *Building Smarter, Scaling Bigger*

Discover how advanced strategies can help you scale AI initiatives while optimizing infrastructure, ROI, and team capabilities.

---

### **August 22: Current Trends in AI**

#### *Quarterly Update on AI Innovations*

Stay in the know with this quarterly session covering emerging technologies and their potential impacts on your business.

---
