Customer Service – 4/10

Zessay.com Review **Zessay.com Review** This is it. There are no social media links, no international phone numbers, no times or days for the live chat or an email form, making it incredibly difficult to get in contact, potentially leaving them in the dark when you need them the most.

The-Essays.com Review

The most attractive thing about The-Essays.com is the ability to talk to your writer directly. Not all writing services enable such a feature. The problem is: neither does this one. This is a heavily promoted feature at their website, but as an actual client, I wasn't able to contact my writer at all. I sent several messages and didn't get a relevant response.

In addition, the pricing system at the website is confusing. It's not really clear how high the final price will be, since there's no quote chart featured at the website.

Why is that?

When starting this The-Essays review, we were very impressed to see a service that offered direct contact with the writer. That feature is not usually available for few reasons. The customers are usually in different time zones, so instant communication is practically impossible. Plus, the writers get distracted with constant messages, so it's more effective for services to have a customer support department mediating between the writers and customers. Seeing this feature at the website was certainly a pleasant surprise, and it contributed towards a very positive initial impression. But when we tried to check out the quotes, we weren't so impressed. We prefer seeing a clear chart with quotes per page, and there's no such thing at this website. There's a price calculator that can help, but the quotes you see in the order form are different.

Pricing – 4/10

Sunday

Zessay.com Review Zessay.com Review They say that the live chat is non-stop available, but you have to sign in if you want to access it. When you do access it, you won't always find a representative online. You have to be really lucky for that. So we had to send email after email, just to get responses to our questions.

"The essay I got from this paper writing service was not too bad, but it was way too simple for my needs. I chose the Master's level, and this was more of a freshman-level essay. I wouldn't recommend zessay.com for complex papers."

Zessay.com Review

I was very impressed when I received the essay I asked Zessay.com. Before asking my paper, I read some Zessay.com reviews to know what I could find on their website and what type of paper I could receive if I contacted them. All the reviews I read gave a high score to the quality of the papers people received, so I was expecting to receive a good paper as well. Well, they definitely went beyond my expectations and gave me a very good written paper, free of plagiarism, very organized and accurate.

Services (10)

I think one of the things I always appreciate the most and that influence me the most at the time of writing a review is what services the website I will talk about offers. Well, Zessay.com impressed me with the wide variety of services they offer. Even though they only write essays, you can get a free outline, a free revision, a free reference page, and a free plagiarism scan. And an amazing thing is that they write essays not only for academic purposes but also for businesses and companies.

Prices (8)

I will be honest in this Zessay.com review, its prices are not as cheap as the ones you may find at many other websites that write essays, but I consider that it is still affordable compared to other websites if you take into consideration the high-quality they guarantee and the other free services you get. At the end of the day, it gets to be cheaper than other writing websites.

Support (8)

I read certain reviews, and they said that the support group of Zessay is very efficient and will try to solve your problems as soon as they happen. This is completely true. I contacted them because I asked for a revision to my writer and he did not send it in the hours he said he would. The support team took some time to answer me, but as soon as they did, they did everything they could to solve my problem. They were very nice to me and apologize for any inconvenient – another thing I highly appreciate and value at the time of writing a review.

Delivery (9)

I was super glad for Zessay.com because the paper I asked for was delivered hours before the deadline I established. I consider the writer I chose did an excellent job despite the few days I gave him to do my paper. The only problem was when I asked for a revision because the writer took some time to reappear due to personal issues. But just as many Zessay.com reviews said, the writers are as responsible and punctual as they say they are.

Overall Experience (9)

Just as the reviews I read said, Zessay is an amazing website that offers one of the highest-quality writing services around the net. Even though it can be seen quite as an expensive service, if you take into consideration all the services you can get for free, the quality of the product you will receive, and how responsible your writer is, you will see that it is a great and affordable investment. I highly recommend this website, and I would use it once again hesitating not even once.

"Not all writing agencies are bad, but this one definitely is. My writer was not a pro, and he definitely wasn't an expert in economy - the study area of my topic. I got a research paper that was practically paraphrased from a Wikipedia page."

Mary Walton's conclusion on Zessay.com Zessay.com Review

Zessay.com Review Zessay.com Review The prices are okay, but the short deadlines are not specific. There is no blog or free samples, so you can't assume what quality the writers deliver. That's exactly why you need this ZEssay review.
