

Land in Damnation

*I must have fought a thousand wars
Been the cause of a million screams
But I can hear the marching feet
They're moving into the street*

*Now, did you read the letterpress?
They say the danger's gone away
But I can see the fire's still alight
They're burning into the night*

*There's too many elves, too many heathens
Causing too many problems
And there's not much left to go around
Can't you see this is a land in damnation?*

*This is the world we live in
And these are the lands we're given
Guard them and let's start trying
To make it a place worth dying for*

*Oh, Willakers, where are you now?
When everything's gone wrong somehow?
Brothers of stone have come to power
And are gaining control by the hour*

*This is the time, this is the place
So let's fight for the future
But there's not much left to go around
Tell me why is this land in damnation*

*This is the world we live in
And these are the lands we're given
Guard them and let's start trying
To make it a place worth dying for*

*I dream of long ago
When the council was ruling
And all the dwarves could fight all through the night
In the wake of this madness, I ask you to fight
So gods help us*

*I won't be standing by tonight
My organisation will put this right
We're not just making promises
That we know we'll never keep*

*There's too many elves, too many heathens
Causing too many problems
And there's not much left to go round
Can't you see this is a land in damnation?*

*Now, this is the world we live in
And these are the lands we're given
Guard them and let's start trying
To make it a place worth dying for*

*This is the world we live in
And these are the tools we're given
Stand up and let's start fighting
To make our lives worth singing 'bout.*
