

## Pat Johnson

Pat was born and raised in Southern Illinois in a town on the Mississippi River, Chester. She is an incurable 'river & water rat.' Her Great Grandmother was full-blooded Cherokee Indian. The rest of her is a full-blooded 'mutt mix'...unlike her dog. She raised one adult (now) daughter, and she is married to Dr. Wil. Her primary background is in business and personnel management. She had her own businesses, participated in managing medical offices, and more recently was a manager and head of personnel / Personal Relations for an industrial business. For GMT she oversees pharmacy set up, supply, and inventory. She goes on all the GMT trips along with Dr. Wil. On the trips, she oversees/assists in taking care of the trip participants needs, just like a mother, facilitates the trip process, troubleshoots, and she supervises the clinic pharmacy. She loves 'hanging out' and mixing with students/staff and receives deep meaning & satisfaction doing the clinics/trips. She is honest deep into her soul, has a bubbly-smiley warm personality and is deeply Spiritual. She takes great pride in the GMT mission and the outstanding students who come on GMT trips.
