

# EVIDENCE

Hi Game Jolt I like to report something that happened on the site anonymously. There is a user that has done horrible things on GJ and I would like him to be banned since he got away scott free thanks to someone else. This user's username is [https://gamejolt.com/@\\_Real](https://gamejolt.com/@_Real) (User also has an alt account) . I too have evidence of them doing such things and I was there too when it happened and I couldn't speak out about it to others thanks to another user who had power in the communities I was in who as of now is banned. What this user did was violate GJ's TOS by sharing NSFW to multiple people younger than him in a fireside then calling one the fa slur. This user used to be a friend of mine before I found out about this and once I did I spoke out but then quickly silenced by a huge Game Jolter named DaylenTvGaming (Who's now banned). I am happy now that I'm able to report this user as now I am no longer an active user of Game Jolt including that person who had power (DaylenTvGaming) being gone. I want the users of Game Jolt to be safe from him and I'm surprised he has not faced any repercussions. Please help me protect the users.
