

I cant believe my son passed away

Now im coming back from hospital ...

My wife is crying

I am whispering repeatedly " what mistake did i do?"

And remember last night

My 5 year old son called me in the middle of night : "dad can you bring me some water?"

And like every night i was nagging : " you just ate water half houre a go"

Come back to his bed and gave him a glass of water

Me: dont you want any thing dear ?

My son : thanks dad . you are the best dad .

And kissed my cheek slowly and sofly

I came to my bed a few moment later My wife said i feel pain in my stomach

I said : " in 8th month of pragnancy its natural but if feel more pain tell me to go to hospital"

But the pain grows more and more and she couldnt tolerate it

With sudden scream i woke up

My wife : "the pain is killing me . Call Dr Adkinson and take me to the hospital "

.

.

Dr adkison : "yes Im sure the baby is gone "

5 year passed and

Now me and my wife celebrate the 3th anniversary of opennig our " mother care clinic"

There are thousands of mothers all around the world visit our website to get " clinical health care"

And all mothers share their experiences and pains of their 9 month pragnancy or other mother health cares to avoid so many disasters
