Summer Semester 2026, Year 2			
Elective: Choose any elective TBD		COUN 692: <i>Internship-MH (if needed)</i>	

It is my goal to graduate in May of 2026. I did not take any of the optional courses over the summer. I am almost finished with all of the classes in the Fall semester of 2024. These courses include Intro to Counseling, Theories of Counseling, Clinical Psychopathology, and Techniques of Counseling. I have registered for all of my Spring and Summer courses for the year 2025. In the Spring, the courses will be Lifespan Development, Multicultural Counseling, Group Counseling, and Treatment Planning. In the Summer, I am taking Ethics, Marriage & Family Counseling, as well as the electives of Human Sexuality and Advanced Counseling Modalities. Finally, I am completing my Practicum hours and the equivalent course over the Summer as well.
