

Silva Service Award Recipients

The Orienteering USA Silva Service Award is given annually to an orienteer who, along with being a member of Orienteering USA, has demonstrated outstanding service to orienteering in the United States over the past five years. The recipient need not be a terrific orienteer, and orienteering skill is not considered in determining the award winner. The essential quality of every winner has been service to promoting and sustaining orienteering, to making the sport work in this country, and in helping to build the organizations needed to make orienteering successful.
