## Skills

---

- HTML | CSS | JavaScript | Git | APIs | Vercel | Adobe Photoshop | Adobe Premier Pro | Pinnacle Studio
- Quality Assurance Tester | Eager | Communicative | English - Proficient and more...

## Projects

---

**Macbook**: A MacBook-inspired interactive web app featuring six functional apps: Photos, Notes, Photo Booth, Folder, Safari, and Settings. Built with HTML, CSS, and JavaScript.

**Windows 11**: A web-based simulation of Windows 11, allowing users to explore its interface and features interactively.

**Flip Match**: A fun and interactive card-matching game that challenges your memory. Built with HTML, CSS, and JavaScript.

**Family Tree**: A user-friendly platform to create and visualize your family tree by entering details manually. Built with simplicity and efficiency.

**Dear Diary**: A minimalistic online diary to jot down and organize your thoughts securely. Simple, clean, and easy to use.

**Recall**: A memory-based card game designed to test and improve your recall skills. Simple and engaging gameplay.
