

## **Founding of the World Humanistic Cities Network (WHCN) in Andong City, Republic of Korea**

### **Endorsement from (City Name)**

We hereby express our support for the founding of the "World Humanistic Cities Network (WHCN)" in Andong City, the esteemed capital of Korean spiritual culture.

In an era dominated by materialism, where social challenges threaten the essence of humanity, we recognize the pressing need to seek solutions. These solutions must cultivate empathy and propagate humanistic values, striving to identify collective strategies to navigate and overcome these crises.

With this understanding, we advocate for the exchange of experiences and insights related to humanistic values among cities. We commit to advancing international collaboration in humanistic endeavors. Thus, we are honored to declare our participation in the "World Humanistic Cities Network (WHCN)." This global initiative, launched in Andong City, Republic of Korea, aims to promote exchanges and cooperation based on humanistic ideals.
