Paul Farran:

Stems From Darkness Credits:

Paul Farran — writer, composer, producer, guitarist and lead vocals. Creator of Stems from Darkness across its album, memoir and live forms.

Jules Pampena — co-producer, engineer and drums. His work and touring credits include Scars on Broadway, System of a Down and Elephant Stone, with live-performance recording and mixing credits including Billie Eilish, Portugal. The Man, LP, Lennon Stella and Reignwolf.

Pemi Paull — Juno Award-winning violist and president of the Canadian Viola Society. Appears on more than 60 albums, with credits including Patrick Watson, Richard Reed Parry of Arcade Fire, Chilly Gonzales, The Barr Brothers and Hey Rosetta!

Emmanuelle Orange-Parent — backing vocals, including the Stems from Darkness live sessions.

Omar Raafat — piano (composer and multi-instrumentalist - hundreds of film/TV placements, including Netflix, ABC, CBS and The CW). Co-developed the original orchestral composition that became “Eclipsed.”

Patrick Goyette — mixing engineer at Studio Tempo, Montréal, with recording and mixing credits including Flore Laurentienne and Corneille, as well as production work for Assassin’s Creed and Far Cry. Stems from Darkness vocals were tracked and the album mixed at Studio Tempo, the historic Montréal studio that has hosted David Bowie, Diana Krall and Harmonium.

Richard Addison / Trillium Sound — mastering. Addison brings more than 40 years of mastering experience, with Trillium having mastered thousands of albums for artists and clients across Canada, the United States and Europe.

Yan Faraire — vocal coach and industry advisor, providing vocal development, strategic support and Montréal industry introductions. A former professional singer, his coaching work includes established Canadian artists such as Daniel Bélanger.

Ray-On Music Services — exclusive global sync representative for Paul Farran since October 2025. The Canadian company works across sync, publishing, rights management and label services, with recent sync clients including Netflix, Amazon Prime, Sony Pictures, The CW, CBC and Ubisoft.
