In each section, list goals and milestones that you can accomplish in the given time-frame. Align these goals with the activities you have listed in your sun by their symbol.

Complete your Daily Seed Routine Before Working On Your Tree

Fill out each section of the tree according to the designated time frame. You can number each quadrant in order of its priority if it is helpful.

Years: Plans you want to fulfill

Months: Goals you want to accomplish

Weeks: Projects you want to complete

Days: Tasks you need to get done

Update and reflect on these regularly to align with your sun and seed.
