Grizzly

And now inside the mind of Felipe.

Felipe

Oh, goodness jeez, man. Goobleck's just running in there. Well, frick, man the plan failed. I really thought they'd think I was a doctor and wanted to leave, or maybe they just killed me. Ugh, I don't want to die yet, man. All right, I guess we're walking in here, kind of spooky, there's a light. We're walking up the steps. What the heck is that thing? What is that thing? Oh, my god. Oh, my god. That thing shouldn't be alive. It's They're like the head of a lion, a tiger, and a bear. Oh, my. Well, I guess we're at this door now walking through some narrow hallway. There's a thing. It was like Sylvains and Chuck Lloyd. Oh, it's sand everywhere. There's sand everywhere. It's going to get in my toes. Oh, man, I hate that. Are those snakes? Are those invisible snakes? Oh, jeez, man. It just killed all of Goobleck's little animals that he birthed out of his goo. Oh, my god. Well, you know what? I'm not that afraid of snakes because I could probably just eat them, or maybe I could suck up their poison. I'm probably more poisonous than this thing.

Felipe

But you know what? I'm out of here. I'll just wait till they figure it out. Oh, looks like they got it. We're keeping it going. We're keeping it going. Oh, man, this is crazy. Do they know that I'm dying? Do they see? I hope they see that I'm actually freaking dying right now. I'm dripping blood everywhere. I can barely keep myself straight up right now. Things are going very terribly for me. Whoa, what is that thing? Oh, goodness. That's even worse. You could see it's organs in there. Oh, my god. It has kangaroo legs. You know what? I'm going to shut up. I'm not talking anymore. Here we are. Checkpoint number two. Oh, man. Chip's going to have to run through a bunch of weapons and stuff. That's crazy. It's like strings of chains, of sharp chains. Oh, man, did someone just turn the AC on? Damn it feels good to hear. You know what? I'm going to be bothered with this. I'm going to stand by the door again. Oh, would you look at that? It looks like he made it. The door is opening. I guess we could just continue to keep going up.

Felipe

Wait a second. Really? Right now, they want to sit down right now in the middle of this laboratory and just sit here. Oh, my god, he's crying. Oh, Chip is crying. Oh, now Jay is looking at him and saying something. Oh, wait, in our feelings. We're getting in our feelings right here, right now. Are we sure this is the time? Really? There is a thing a few steps down where you could see its bones and it looks like it could eat us. And another one broke out. And we're in the middle of this. This is not the time to be a bunch of little babies. Oh, my god. They think they're a

mistake. Why are we crying over spilled fish like this? What's so good about Gillion? I mean, sure, I don't remember why I hate him, but I do. He's a nobody. He's a zero. Who cares about him? Finally, we're going. That's one big door. Oh, jeez. Oh, big jeez. That's one big thing. Oh, my god. It has faces in his arm. Oh, man. Oh, it talks. It talks right now. Its name is King. Oh, it wants to ask us a question.

Felipe

Oh, my god. Wait, where'd Goobleck go? It's a philosophical question? What the... What is this place, man? I want to go home. I what? I want to go home, man. I don't know anything about philosophy. I'm three days old, dude. What is this? Oh, man. Jay just invented determinism. Oh, hey, look, Goobleck just freed the big beast. Are you kidding me, Goobleck? It's going to eat us. Oh, Oh my god. Oh, Goobleck just invented indeterminism. Oh my... The floor is glowing. The big beast just is... The big beast just fucking smiling at us. Oh, my god. We're getting teleported away. Looks like Felipe is getting isekai'd again. Well, I'll just roll with it.

[Shmoove by Shady Cicada plays] (transcribed by thelittlestjenna)

Grizzly

What's up, everybody? Welcome back to Just Roll With It. My name is Grizzly, and I am the DM.

Bizly

Hello, everyone. My name is Bizly, and I play Chip.

Grizzly

Uncannily sounded like the milkman for a second there. Sorry.

Bizly

Milk. Milk.

Condi

Hello, everybody.

Charlie

[Exandroth groan]

Condi

My name is Condifiction.

Grizzly

Hello, everybody.

Condi

And I play Jay.

Charlie

Hello, everybody. My name is Markiplier and I'm-

[laughter]

Charlie

What's up, guys? I'm Charlie Slimecicle. I used to play the character you all knew and loved as Gillion Tidestrider, but he's gone, and now I play Goobleck.

Grizzly

Harsh, bro. Wasn't last episode the final part of Gillion's part, too?

Charlie

It was.

Grizzly

Man, I wonder how they're doing. Remember, you two can't know nothing.

Charlie

Well, he was a really fun character, I think, for all of us.

Bizly

Wait, so you know some shit now?

Charlie

Me?

Condi

He's known some shit for a while that we haven't known.

Charlie

Oh, I know some shit all right.

Grizzly

But it's okay. Anyways.

Charlie

Don't gill yourself over it.

Bizly

I'm going to do my angry nose, Charlie, and you're going to be upset about it.

Charlie

Dude, you can't even breathe in through all your holes. I'm not scared of you.

Grizzly

All right, all right, all right. Here we go. Where we last left off, the four of you, Chip, Jay, Goobleck. And Felipe is there, too, I guess, of the Riptide Pirates, encountered a pyramid in the middle of this jungle inside the interior forest, what you would learn to be called the specimen observation forest or branch, inside of this illusionary transmuted laboratory ran by the Doctor and his interns. And inside this pyramid, you saw different amalgamations, like chimeras that were disgustingly stitched together and unexplainable and just horrifying to look at, making your way through these security-level chambers of traps and the like before you reached the very top of this pyramid, the King's Chambers, where you met King, a very massive, terrifying, probably the grossest chimera that you had seen up to this point, with faces in its arms bubbling out, one

of those faces recognizable as the little halfling that was lost in the mirror. And this King said, the Doctor wanted him to pass judgment on you as visitors, on whether or not you'd be worthy enough to meet with the Doctor. To do that, all he did was ask a question, and do we have free will?

Grizzly

We, as in King, who kept referring to themselves as we, or we, as in people in general. There was some discussion between Chip and Jay as Goobleck snuck around and up and did his thing, his little gooey thing, and broke the chains.

Charlie

Don't talk about his gooey thing, bro.

Grizzly

The thick chain that held King in place captive [crosstalk 00:07:03] here in the chamber.

Condi

[crosstalk 00:07:04] And also my argument. He broke my argument.

Grizzly

And your argument, of course. I forget what it's called, but it was something.

Condi

Determinism.

Charlie

Determinism?

Grizzly

Determinism. Anyways, he broke your determinism. But now the four of you, or maybe just the three of you, I don't know about Felipe, are more determined than ever as King's eyes and all the faces, including its own mask, begin to glow as these runic inscriptions or carvings in the steel floor below you began to glow as well. And in an instant, seeing it's just like a face showing

emotion for the first time since you'd met it, you disappeared without a sight, supposedly on your way to see the Doctor. And so the journey continues. So it all goes black for all of you, but you still feel this distorted, crunching, magical, arcane feeling as if you know that your being is being transported through space, and you're rising, but it's happening magically.

Charlie

Can I hold Felipe's hand?

Grizzly

Sure you can.

Condi

You're going to merge with Felipe. No!

Charlie

No, dude! Can we not? We come out the other side, it's like a Cronenberg, the most fucked thing of all time.

Grizzly

It's like a Freaky Friday situation, and now Felipe is Goobleck, and you're Felipe.

Charlie

[in Felipe voice] This is freaking awesome.

[laughter]

Grizzly

No, but during this brief teleportation, Goobleck, what you would assume to be the last batch of those memories from Navian, hit your mind's eye. It's much later in life, and you see where you know that... You see actually this reflection of glass behind these monitors that you had seen before. You can see the face of the the Puppeteer, so you know that this is who you are. These are the memories of where they're from. It's confirmed. And just off to the side, you see those rows of vats that have more of the Puppeteer bodies.

Charlie

Oh, god.

Grizzly

And you look to your left and you're watching this big hulking figure, humanoid, with this large syringe, like a needle that is at least 12 inches long, and it's filled with some liquid that looks a little fuzzy, and you blink in this memory, and that humanoid stabs into themselves. And It's just this bubbling and gurgling, and then this transformation as this humanoid begins to expand.

Charlie

Can I tell what the liquid looks like in this memory, or no?

Grizzly

It's a little hazy, as if the memory itself has vignetted, but it does seem to be a shade.

Charlie

Can I tell what color it is?

Grizzly

It does seem to be a shade of purple. With that, all of you bamf into a new area.

Jay

Where are we now?

Bizly

I'm going to look around.

Grizzly

As you appear within this new space instantaneously, you're standing in an octagonal... You can already tell it's an octagonal-shaped interior with dark polished concrete at your feet, hearing the hissing sounds of steam accompanied by this electronic whirring. You look to your left, all four of you, and slowly up to see steel beams and industrial riveted pipes climbing these carved steel walls, giving it this layered and decorative importance, almost. The walls themselves taper up

like a cone until your eyes reach the highly-raised ceiling, ending in this skylight of crystallized, stained glass, refracting this dim, multi-colored light throughout the room with just these ring of spotlights, just just outside of that skylight.

Chip

Well, if he was going to take us anywhere to kill us, this is the place.

Grizzly

As soon as you say that, all of your attention gets redirected by the sound of something stomping on the ground, which echoes in this chamber. And it redirects the attention to which you see, directly in front of you, a gigantic slowly gyrating hourglass with this enchanting, elegant woman inside of it. And you briefly notice her exaggerated elven features but you are overwhelmed by the sheer amount of these thick wires that are hanging from a suspended, glowing ring that surrounds the hourglass. The wires travel up through the ring and then scatter around the room into indiscernible machinery with that purple liquid pumping and dripping through everything that's connected to the hourglass centerpiece. And you recognize that, Goobleck, like you put it together, that this liquid and the liquid in that syringe is the same. But that centerpiece and this entire chamber, as much as it is, and as much as all of it is to take in, nothing quite matches the sheer intimidating presence from the figure that stands in front of the hourglass facing it, where you recognize that's where the sound just came from when you spoke. What are you guys doing?

Goobleck

I am so happy that when Goobleck die, it has the family dog. Thank you so much, everyone.

Jay

Good boy.

Condi

I pet him on the head.

Charlie

Oh my god, yes.

Bizly

Holding the sword. I do look over.

Chip

You've been a good boy, Goobleck.

Charlie

Okay, Goobleck actually very much enjoys Jay petting him. You see his eyes don't exactly close. They just like, squish horizontally like a photoshop transform. And then he does sit as Chip tells him to sit.

Condi

My eyes are locked on this Elven lady in this hourglass, and I'm actually going to start slowly taking steps toward the hourglass.

Bizly

Holding Gillion's sword. I don't think Chip would be able to just hold it upright like this for very long, but It's just holding it backwards and walking forward as well with Jay.

Grizzly

Felipe mutters under his breath,

Felipe

Oh, fuck that. I don't know about this one.

Grizzly

You guys begin to walk forward and almost in tandem with your steps as you approach. The figure standing in front of the hourglass just slowly turns the shoulders and then turns the entire body. And then you see the roughly seven-foot-tall man with this Herculean build. He's seven-foot-tall, and he has this power lifter, Olympian power lifter.

Condi

Yeah, I stop walking. [laughs]

Grizzly

So both of you, okay, so you stopped walking, Chip-

Bizly

I'll stop with Jay, but I'll continue to stay.

Condi

Yeah, I continue to stay.

Charlie

I want to immediately make... If you'll let me, like a saving throw to not immediately be scared or frightened.

Grizzly

Go ahead and make a wisdom save for frightened, yeah.

Charlie

Yeah, because Goobleck would see this face and immediately flashback.

Grizzly

Absolutely would, you would recognize-

Charlie

I actually rolled pretty well. I got an 18.

Grizzly

Okay, so you aren't frightened, mostly because this visage of this humanoid, what you remember are the eyes, but you don't remember the rest of it, which is what you guys are looking at. His skin is this deep plum shade with cracks of purple veins that branch all around the skin and up the skull. And don't say anything, but he is bald. He's bald, okay? Don't say anything. [Condi points at screen] Don't move. Don't move. Just let me finish. Don't move. He's very bald. [Bizly points at screen] He is beautifully bald. I mean, like Mr. Clean bald. It is the

most defined fucking forehead, temple bones. [Charlie slowly raises hand up] He's so bald. It's awesome. Anyways. But he has this arrow-shaped white beard with a well-groomed mustache, these thick and white eyebrows resting sternly above his full black sclera eyes and the golden, glowing irises. And this is what you remember the most Goobleck.

Condi

I just want to say all of us are children.

Grizzly

Yeah, I know.

Condi

He said the word bald.

Grizzly

He's wearing his lab coat as a cape over the shoulders of an extremely well-crafted and designed suit. The black coat of the suit has a silver snake wrapping around both sleeves and the leg of his black pants. His undershirt is gold with a black tie, layered below a purple and gold vest, tucked into a purple sash. The outfit concludes with black dress shoes that have golden tips. And he once again, taps this cane that he's holding, this cane that is black with these two golden metal snakes constricting it. And you notice that he has rings on his fingers that could rival a pirate. And and he just smiles. I'll show you guys the art for what you are looking at.

Condi

Holy fuck, he's huge.

Charlie

Holy shit, bro.

Bizly

Whoa.

Charlie

Oh my god, he's massive.

Bizly

Oh my god.

Condi

Oh my god, is that Goobleck?

Charlie

Dude, why is this orb-? Why am I dead at his feet, bro? What the fuck?

[laughter]

Condi

This bodes ill for Goobleck.

Bizly

Those shoes are fucking drippy as hell, though.

Condi

Yeah, he's dripped out.

Bizly

Oh my god.

Condi

He looks like a Yakuza.

Goobleck

Please don't turn me to drip.

Bizly

I did think of Saints Row.

Charlie

That makes sense.

Charlie

You know that he looks like? He looks like a Saints Row Mafia Genie.

Grizzly

In canon, I didn't describe that circle. That's just for flavor for the art. It's not actually in the fucking campaign. You don't see that. You just see the man.

Charlie

It is awesome. It is awesome.

Grizzly

But those cracks of purple do run through his skin.

Bizly

Oh, man, this art is so cool. I'm so glad that I'm going to be able to download this on our Patreon, patreon.com/justrollwithit, where I'll have the high-quality download for the art of this awesome character. I'm so happy about that.

Charlie

Can't wait to download this, hang it in a frame over all my old Goobleck stuff so I can remember what fucking killed him. It's going to be great.

Grizzly

He smiles and then picks up his cane a little bit, the gesture at the hourglass, and he says,

Doctor Ooze

Sick as fuck, isn't it?

[laughter]

Chip

Did he just say sick as fuck?

Jay

I think he just said sick as, no, it's-

Chip

No fucking way he just said it.

Jay

It's fucking sick is what it is. Like in the bad way, slash an egg.

Bizly

Did you say that out loud?

Condi

Yeah.

Grizzly

He puts the cane slowly back on the floor and just stares directly into your eyes, Goobleck, and he says, ignoring what you just said, Jay.

Condi

Yeah, good.

Goobleck

Well, how nice of you to return, experiment 808.

Chip

His name is Goobleck.

Doctor Ooze

Goobleck.

Goobleck

Goobleck.

Goobleck

So you've taken on an identity. I hope it wasn't too much trouble escorting my little one back home.

Chip

He's not your little one anymore.

Goobleck

Now I the family dog for Chip and Jay.

Chip

What, you're supposed to be the Doctor?

Jay

It is safe to assume that that,

Condi

And I point towards hourglass,

Jay

Is Celestine.

Grizzly

Quite educated, the lot of you. I am-

Goobleck

No.

Doctor Ooze

Dr. Ooze. And this, I suppose its name could be Celestine. A powerful being, isn't it? You can feel the magic radiate through the room. Splendid.

Grizzly

And you do recognize Jay and Chip that this magical energy that is emanating, just pulsing off the hourglass, it gyrates, is very similar to Grimm. It's still slightly stronger as much as it is weakening. And you can see that there is this... That magical energy travels throughout all the wires, including these really thick tree trunk wires that run in an X shape below the hourglass on the floor.

Condi

I look back towards Chip to see where he's at with this right now.

Bizly

I look pretty angry, just overall.

Doctor Ooze

To what do I owe the pleasure for your visit? I assume this means Goobleck,

Grizzly

He says a little hesitantly,

Doctor Ooze

Your job is complete.

Goobleck

Goobleck unemployed.

Charlie

Do I know what he means when he says my job?

Grizzly

It fills you with this sense of a familiarity, but you have this almost in relation to anamnesis, sense where you don't know exactly what he's talking about. But deep down, you do feel what he's talking about. But if you want to roll, just go ahead and make another wisdom saving throw.

Charlie

Okay. 17.

Grizzly

So with this, nothing inside you changes. Personality and goals, morals-wise, whatever ideals Goobleck has.

Charlie

Oh, god.

Grizzly

But you do get the sense that you were created by this man in front of you, 100%. This is what humans would consider god to you.

Charlie

Oh shit.

Grizzly

And you were created with a purpose. And he says,

Goobleck

What is my purpose?

Goobleck

About how many have you consumed? I am eager to know the amount.

Charlie

Can I roll a D100?

[laughter]

Grizzly

Absolutely.

Goobleck

Ninety.

Condi

Jay's eyes widen.

Goobleck

Oh wait, hang on.

Jay

Consumed-

Goobleck

Computing, computing. 91.

Chip

We're here to...

Bizly

And I look over to Pretzel.

Grizzly

Pretzel is still, like I said, just that little bit on her head. It's still like a puppet-y form or plushy form, but the rest of it is all good. But there seems to be this cloudiness in the eyes, at least the

other eye, since the left eye is still, you know, puppet bead. The other eye is still cloudy as if Pretzel can't really see at the moment.

Chip

We're here to get Pretzel fully back.

Grizzly

She's just sort of spinning. [whirring sounds] It looks like a panic maneuver that frogtopi do, where they just spin around and around until someone gets them.

Charlie

It's just a beyblade, yeah.

Chip

Free Celestine, and probably kick your ass.

Jay

And also Goobleck.

Chip

Yeah, that too.

Doctor Ooze

Interesting. We've only just met and you are set on some combat encounter with me,

Grizzly

And he steps forward, like races the chest, which increases his height in the fucking lab coat billows, and you feel it once again. Actually, you know what, Chip? Just you. Go ahead and make a wisdom saving throw.

Bizly

Wisdom save. I'm not good at those. I got an 18.

Grizzly

An 18 passes. So you do feel this overwhelming presence. This man is a conqueror. If you fail that save, you would feel like a little pebble compared to a giant skyscraper. But you managed to shake it off because you have met a lot of things in your journey thus far.

Charlie

You're a fucking bastard.

Grizzly

Yeah, you're a bastard. You're haunted. Anyways, so... And he says,

Doctor Ooze

We've only just met. [sighs] I'm a bit disappointed.

Chip

Well, I don't assume you're going to loosen your grip on this place without a little force.

Doctor Ooze

Oh, I mean, actually, I only need one thing, and I'm good to go. Experiment- Goobleck, since your duty is complete with 91 consuming, and I was hoping you would get that carnival master or ringleader with all that power inside of his soul. But 91 should suffice.

Goobleck

Kas offer many benefit, like dental.

Grizzly

He steps around this hourglass. If you guys wish, you follow in parallel, but not getting any closer.

Bizly

Yeah, yeah.

Grizzly

And he points over to this large, let's say, futuristic, electronic kitchen made machine. Anyway, so he points at this. I don't know how to describe it, but it looks indescribable. It just looks like a giant machine.

Charlie

I pictured a blender.

Grizzly

Exactly.

[laughter]

Grizzly

How about you just picture a very large blender? Anyway, so it's filled with different biomatter that you can't really tell what it is specifically. But he points at it and he says,

Doctor Ooze

Once Goobleck enters the optimum xenogeneic bio-electronic ooze transmutation processor,

Grizzly

He says, with much gumption.

Doctor Ooze

The final ingredient to create my new species will be added, and I will be on my way. No conflict.

Charlie

Goobleck doesn't say anything, but he looks very, very nervously and shaking at whatever Jay is about to say.

Jay

What is it you plan on doing with a new species?

Doctor Ooze

Quite inquisitive. I have been meaning, excitedly, been wanting to share about this. You see this species, I'm sure you know Goobleck by now, some of the interesting abilities he possesses.

Jay

He turned into a cock once.

Doctor Ooze

Like a... How big.

[laughter]

Bizly

I look in my pants, I'm like... I'm looking in my pants, I'm like...

Chip

[shrugs] Eh.

Doctor Ooze

This species, young miss.

Goobleck

Adquent length, legendary girth.

Chip

Like a Coke can, kinda.

Grizzly

He pauses waiting for you to say your name. Jay, if you wish. He says

Doctor Ooze

Ms. uh-

Jay

Jay.

Condi

I say hesitantly.

Doctor Ooze

Jay.

Grizzly

Also Jay, you would also notice that this disciplinary way of holding himself is similar to your father.

Condi

I absolutely got that vibe. Yeah.

Grizzly

And he just says,

Doctor Ooze

This species is immune to poison, to disease, to any affliction that could cause peril in a society. But not only is it immune to the falsehoods of being a creature in this universe, in this multiverse, it can spread its DNA to other living creatures and turn them into the same species until we are all the same.

Grizzly

And, Goobleck, you reflect back to when you turn that little squirrel hybrid, chimera, into another Goobleck. That's what he's talking about.

Goobleck

Oh, no, Goobleck already do that.

Doctor Ooze

Precisely. So once...

Goobleck

So no blend. No blend. No.

Doctor Ooze

Once your potency as a plasma, as an ingredient, is added it will be enough to sustain the beginnings of this new era of a race.

Jay

So they're like some sort of zombie. They just run around and infect people and turn them into whatever they are?

Doctor Ooze

But what do the undead do, Jay? They kill and eat until life is no more. This species spreads life and essentially evolves pre-existing life, stronger humans and the like, immune to that which would keep us down.

Goobleck

Okay, Jay. It eugenics.

Condi

[laughs]

Chip

And what happens to Goobleck?

Doctor Ooze

Goobleck, as my creation, will have served the greatest purpose and finish my research, my many years of experimentation. That is his destiny.

Chip

Destiny's kind of funny that way.

Jay

Sometimes, destiny's not all what it's cracked up to be.

Doctor Ooze

Quite a simple proposition, Goobleck, finish your duty and we will be on our way. And then this castle and this archfey and whatever you wish to do with your meager existence can continue on undisturbed for now.

Bizly

I take Gillion's sword, flip it up, and then slam it down into the ground in front of Goobleck, between them.

Chip

I don't think so.

Jay

I disagree with the entire foundation of everything you're doing. You want to take everything that's beautiful in this and change it into one little ooze. I mean, Goobleck, you're awesome, but everything doesn't need to be a plasmoid. This world is wonderful because of everything in it, the diversity, the people that I meet. If everybody was the same, that would be boring.

Doctor Ooze

I understand your hesitations, but people will not be the same as we have the ability to change our shape, to become whatever we wish people will be the most free in this universe that they have ever been.

Condi

Oh, yeah, actually, that's based as fuck, let's do this. [laughs] I'm joking, not real.

Grizzly

I knew you'd come around. He pulls out a syringe. Are you ready?

[laughter]

Condi

Shit, no, I changed my mind. Fuck that. I was joking. It was a joke.

Charlie

Goobleck sees that Jay and Chip are confronting this guy, and Goobleck turns around to Felipe.

Goobleck

Felipe, you number one Goobleck friend. Do you think everyone...

Felipe

Uh huh.

Goobleck

Do you think everyone should be free and flexible and ooze and do you think maybe that what Jay say is right? Maybe we all just experiences, and I so many experience, 91 experiences. Maybe I'm not even go back.

Felipe

There's a lot of people in you man.

Goobleck

Felipe, what my destiny.

Felipe

Fuck. What is…

Grizzly

Did you guys ever indoctrinate Felipe with the oath?

Condi

We haven't yet.

Bizly

I actually don't think so.

Felipe

Fuck, dude. I really want to see something cool here, but I've never heard it. You know what? In the spirit of that fucking idiot. Fuck, shit. Goobleck, your destiny is whatever you want, man. Fuck shit up, dude. That's what we're here for. That's what we came for. We came for, we just come down, we get down, we brush it down, we fuck shit up, dude. And then maybe along the way, some people get helped out, man. That's what I did back in the fucking city I lived in, man. That's what I did back when I was giving people tours, man, after my third day alive.

Grizzly

He's just whispering to you like it's like a boxing coach helping.

Goobleck

Do you think I help Chip and Jay and Felipe, or do you think I help?

Charlie

And then he looks at the blender,

Goobleck

Everyone.

Felipe

Goobleck, I don't know what the fuck this guy is talking about, man. My brain cells are like, maybe you could call them on one hand, but you have to do whatever you think is the correct thing to do. If you want to carry out this purpose of becoming a goo and being blended into this fucking ooze or whatever, now that everybody gets turned into a Goobleck. I don't mind being like a Goobleck, dude. You can do some pretty cool shit. But at the same time, if you just want to be Goobleck and you don't want to be told what to do by the fucking man,

Grizzly

And he points at him.

Felipe

Then make your own choices. You know? I mean, this could all be over if you go in there or we could fight for your free will, I guess. What do you want?

Charlie

I'm going to roll a die. I'm not going to tell you what is going to be what, and it's not going to be even, but I'm going to roll a die.

Goobleck

Goobleck, want a new mission. Goobleck wants to be best pirate world has ever seen!

Charlie

You see as he bounces up and bounces between Chip and Jay.

Goobleck

Riptide pirates on three.

Chip

Holy shit.

Jay

Holy shit.

Chip

Okay.

Jay

Yeah.

Chip

Are you counting? Who's counting?

Jay

One.

Goobleck

Three!

Jay

What?

[Chip and Jay together] Riptide pirates!

Goobleck

Riptide pirates, okay.

Charlie

You see as out of the ooze, he's going to make a shitty little pirate hat with a little green skull and crossbones on it.

Grizzly

I get the sense that you guys are preparing to fight him.

Condi

Yes.

Bizly

Yeah, I want to.

Goobleck

Okay.

Chip

See that, Doc? He's a Riptide pirate now, and that means he's going to fuck shit up.

Grizzly

He squints the eyes, and when he squints, it only is one golden piercing light that seems to streak as he moves his head forward. And he says,

Doctor Ooze

I can't say I'm not disappointed, but I'm also ecstatic. You see, I've been looking for a few strong, powerful beings to

Grizzly

And he starts stretching, cracking all of his bones.

Doctor Ooze

To really test out these new upgrades.

Chip

Well, you found them.

Grizzly

And with that-

Chip

Give him your best shot.

Grizzly

All of you roll initiative.

Charlie

Goobleck says,

Goobleck

All of those upgrades.

Charlie

And you see as his eyes begin to open all over him, glowing this vibrant green, and these tendrils begin to descend out from under him, creating these various scythes and blades.

Goobleck

And you're still looking like shit.

Grizzly

Dr. Ooze, one of the eyes widens like a fucking crazy mad genius. Oh, shit. And he just smiles at your retort because he looks at you with this sense of proudness for something he's made and how far it's developed.

Charlie

Oh, actually, hang on. Gobleck has just gone through a long rest, right?

Grizzly

Yes.

Charlie

When I finish a long rest, I get to choose a damage type that my manifest blow does. So you guys are going to see as he has had this almost bubbling coming off the tips of these weapons. And you see when these eyes open, it's almost like a jolt runs through him upon remembering all this stuff and choosing a side, and this green electricity crackles out onto his body and onto these blades with this newfound energy he has. And now it's going to do lightning damage instead of acid damage.

Grizzly

Cool. Goobleck, what was your initiative?

Charlie

Seventeen.

Condi

Man, that was such an innocent question, too. I wasn't going to give Goobleck away. I just wanted to know.

Charlie

I've been thinking this whole time about how you guys are talking to Goobleck.

Condi

Yeah?

Charlie

In terms in terms of, yeah, if this situation happened.

Condi

I just pet you and called you a good boy, and you would stab me in the back.

Charlie

He wouldn't stab you in the back. He would think that he was helping you. It's basically however much you valued his individuality and who he was.

Condi

I see.

Bizly

Out of 10, how did we do?

Charlie

Not super great.

[laughter]

Charlie

You basically told him to leave and fuck off last episode.

Bizly

Yeah, I did.

Charlie

Yeah. You guys have been super focused on Gillion. The time you liked him the most was when he pretended to be someone else. So not super awesome. That's why his best friend is Felipe, dude.

Condi

Yeah.

Bizly

That's fair.

Condi

Listen, you came in in a very tumultuous time.

Bizly

Well, you also just came across the most selfish little brat in the sea.

Condi

True.

Charlie

Yeah.

Grizzly

Okay, so this is the start of combat now. And in front of you, you see, again, like I said, one of the eyes widens like a crazy mad genius as he smiles when Goobleck basically roasts his ass,

straight up fire on him. First up is going to be Jay. He just stands there at first, almost as if he's beckoning you to try.

Charlie

That's never good.

Grizzly

If you guys have any more questions or statements, feel free to talk during combat on any round. There's no limitation. You don't have to wait to your turn. You can just speak.

Goobleck

My god, he has one bajillion goo points.

Jay

One bajillion. Shit.

Felipe

One bajillion. No way that could be right.

Condi

So to start, Jay is going to flip up a coin and it's going to zoom. It's going to float in the air for a second, so magnetically attached to this guy. Just in front of him, there's a giant mark on him now, and I use hunter's mark on him. And with that I unsheath, unholster my gun. I'm going to pop two shots off of him.

Grizzly

Yeah. [pew pew]

Condi

I'm going to hammer it.

Grizzly

The goo bullets are magical, right?

Condi

Yes, I believe so.

Charlie

Yeah, they would be. No, that's what we said is it was magical because it was my magical strikes. Yes! That's why we did it.

Grizzly

Okay, make sure to mark off how many bullets you've used.

Condi

Yeah. How many did I get? I think I got ten, right?

Charlie

I think it was only six or something. How many was it?

Condi

It was five or ten. I'm going to say five because that's more balanced.

Charlie

Okay, let's do five.

Condi

So 20 and 21 to hit.

Grizzly

Yeah, both of those hit. Go ahead.

Condi

You said 2D6, right?

Charlie

Yeah. So you get 2D6 extra lightning damage total on both of those.

Bizly

Damn, that's crazy.

Condi

That's 33 damage with the first shot. Yeah.

Grizzly

Woooo!

Bizly

How?

Condi

Revolvers do 2D4.

Grizzly

What the fuck? That ain't balanced? All right, cool.

Condi

And second shot.

Charlie

Revolver does 2D8 Bro, we should all get guns, bro. Fuck Gillion's sword. What the hell? That's awesome.

Condi

[laughs] Fuck swords.

Charlie

Fuck swords.

Grizzly

Welcome to Pirate World, bro.

Condi

Thirteen plus 14, 27.

Charlie

Let's just let Jay fight all our guys. This is great.

Condi

No, that's straight up. It's my Hunter's Mark, which procs every time I hit. I have Colossal Slayer, which is anybody who's underneath their max health gets plus 1d8.

Grizzly

I want you guys to be powerful because it's cool as fuck that you guys are just pirates from another world. You pull out a gun, you just shoot this motherfucker.

Condi

Yeah, okay. So anyway, I pulled a gun, I fan the hammer twice and shoot. They go up, one goes to the left, one goes to the right, and they freeze and zoom towards where that coin was.

Grizzly

Okay, so as he gets shot, you watch as the bullets pierce through him, and you see them shoot through both of his shoulder blades, and they get stuck in this purple ooze behind him, and then that thing slinks back almost like it's elastic, and the bullets fall out. But you see this ooze drip out of those bullet burns.

Charlie

I thought they were going to fly back at us, guys to be honest.

Condi

[laughs] That would suck.

Grizzly

Not that-Whatever. Not that time.

[Condi and Charlie scream]

Grizzly

If you have anything else you want to do, Jay? Goobleck you're next.

Condi

I believe everything. Yeah, I've got nothing.

Charlie

I'm going to extend out these arms and pump a lot of my goo into them and make these basically big, clawed hands that I shoot out ten feet in front of me. I'm going to go and try in, something we've never done before and Just Roll With It Riptide, I'm going to try and shove him.

Condi

Ohhh.

Grizzly

Okay.

Charlie

As I try and push him. So it's same grappling rules, athletics or acrobatics contested. And if he fails, I'm just going to knock him prone, basically. I got a fucking natural 20. That is a 29.

Bizly

Oh fuck.

Grizzly

Okay. You said I had to roll something and save to get knocked prone?

Charlie

It's athletics or acrobatics. It's like what the grapple check would be. Yeah, contested. So you need to beat a 29.

Grizzly

Twenty-nine with athletics or acrobatics. He rolled 25.

Charlie

Yeah! All right, he gets-

Grizzly

He's very strong, but you do push him over cause you're Goobleck.

Charlie

Yeah, there's a lot of resistance when I push and you see it's almost from where I'm pushing cracks start to form.

Grizzly

Yeah, like a rock.

Charlie

Yeah. I knock him over in this big wave of goo, and I want to use my second attack to try and grapple him on the ground. Basically, you almost see the goo start to harden around him. I'm going to try and pin him down. It's another athletics or acrobatics check. I got a 19. I'm going to use Reflexive Adaptation, which I just got at level 11, to roll one more. Fuck. All right, max, the best I got is a 19.

Grizzly

I rolled a natural 19, so there's no way he fails, unfortunately.

Charlie

Fuck. Yeah, he easily just bursts it off as these globs go flying everywhere.

Grizzly

As soon as you slap your hands on them to push, there's almost this concussive burst of a wind blast between you two that snaps throughout the entire room, and you go to grapple him. But that force was enough to just push him away, and he got knocked prone, right?

Charlie

He's prone, but he's not grappling. He's ten feet away from me.

Grizzly

Okay, so ten feet away, he gets knocked, almost like sent flying back, and he gets sent on his back. And there's this [laughs]. He's laughing about it. He fucking loves it. Anyways, next up, he's going to use-

Charlie

I was going to say, I'm actually really scared, so I'm going to use my bonus action to use...God, what is it? I called it wobbling defense. So I'm going to use bonus action to take the dodge action as a monk. So he has disadvantage against me. Goobleck basically splits off into three separate Gooblecks that just started moving back and forth really fast.

Grizzly

Remind me, how many key points do you have in total?

Charlie

Eleven, and I just used two.

Grizzly

When you extend your reach, you use one of the key points to do five feet or ten feet.

Charlie

My reach is defaultly ten feet. I can use a key point to extend five feet further, and I can do that to a maximum of 25 feet or something. So Goobleck basically is like a reach weapon. You know what I mean? So he always has ten feet.

Grizzly

So, Chip, it's your turn. He uses one legendary action this round to stand up. He'll move about five feet closer. Actually, I think you can only do one thing with the legendary action move, so he'll just stand up.

Bizly

Before I do anything, I want to clarify what is there because it might just be my imagination, but I believe you said there were pipes.

Grizzly

So extremely thick industrial pipes that crawl up the the wall. They are attached to the wall, fixated to the wall.

Bizly

But if there was steam in the pipes, would there be steam in the pipes?

Charlie

This is crazy, dude.

Bizly

Okay, all I want to do is stab into the pipe and fill the room with steam. That's for my action. That is what I want to do. If I can't do that, I will do something else. That's why I'm asking you.

Grizzly

You can use your action to stab into the steam. I'm not going to tell you what's in the pipes.

Charlie

Let's hope these pipes are full of steam.

Condi

Could he do a check, like a knowledge check?

Grizzly

What I was saying is you can stab into the pipes, but I won't tell you what's in them.

Bizly

First thing I would want to do is look at the pipes and maybe discern what might be in them, the pipes climbing up the walls.

Grizzly

All right, just roll perception.

Bizly

That is a 19.

Grizzly

With a 19, you can tell that you did hear steam, but most of it is coming from the different machines that are scattered around the room, and some of them are even attached to the walls. These pipes seem to be dripping that purple liquid.

Bizly

Ooo, yucky. Okay, so not going to try and fill the room with steam. Instead, I am going with this sword on the ground, I want to kick it up over into the air, hold it on my left shoulder, and I want to try and maybe use these pipes to get a little higher up, really just for flavor, to kick off one of the pipes grab onto another, just a little hold, pull myself up.

Grizzly

You can grab a wire because there's tons of them hanging around.

Bizly

Sure. Yeah, just grab up a wire, swing off, do two steps off of the wall, and then pull the sword up and over and slash it down onto this guy.

Grizzly

All right. Bet. Yeah, all that flavor is good. I should make you roll acrobatics, but I think I'll just let you flavor it. Next time, when you do some crazy shit, I'm going to make you roll acrobatics.

Charlie

Hear me out. Hear me out on this. Hear me out on this DM. Acrobatics check. If he passes, he gets advantage. Thoughts?

Grizzly

Yeah, sure. All right. Acrobatics check, but with all the things that you said you did, probably DC around 15.

Condi

Okay.

Bizly

But if I fail, do I get disadvantage?

Grizzly

Yes.

Condi

That's the gamble.

Bizly

Dude, I only have an acrobatics of three. I don't know why I do this stuff.

Charlie

No, dude, you're going to pop off. This is going to be sick.

Condi

This is going to be sick.

Bizly

Okay, DC 15.

Charlie

Say watch this before you roll it.

Bizly

No, because I will fuck up.

Grizzly

It's climbing, it's swinging. Yeah, it's definitely...

Bizly

I failed. I failed. Fuck you, Charlie.

Grizzly

So just roll to hit with disadvantage.

Bizly

You did this to me.

Charlie

What do you want from me?

Bizly

You did this to me. You do-[makes lip trill noises]

Charlie

Please tell me you at least put your armor on.

Condi

He did.

Bizly

Eleven.

[laughter]

Condi

I like to imagine he's like falling through the air. Then he just falls backwards.

Bizly

My shit catches on some of the wires and I flip backwards-

Condi

So you get close lined.

Bizly

Exactly and I hit the ground.

Charlie

It's like a full total wipeout, like four seconds of falling and just bouncing between shit.

Grizzly

Yeah, unfortunately, you miss. All right. You rag doll. You don't miss because you're bad. You just miss because you rag doll.

Bizly

Okay.

Goobleck

Maybe everyone needs to be Goobleck after all.

Bizly

I'm going to, with my bonus action, get up and hide.

Grizzly

You got within five feet of him, and you're going to move away?

Bizly

No....

Grizzly

I'm just saying if you move away to go and hide, you're going to take an opportunity attack as a reaction.

Bizly

I won't.

Charlie

Do you have to hit your attack on him to get your thingamajig? [Bizly nods] Ah Shit. Okay.

Grizzly

In that case, it's not great either way. He uses a legendary action. I need you to make a dexterity saving throw as you end your turn within five feet.

Bizly

Okay well, I rolled a four. That's an eleven.

Charlie

Oh, bro.

Grizzly

You just barely miss and you're hands on the ground with the sword. And then you notice that your hands are in this purple liquid that looks like Goobleck, and you see that it's leaking underneath the pant leg. And then it just very quickly solidifies and begins to wrap around your entire body.

Charlie

[in a british accent] You got a little bit of pree going.

Bizly

Charlie! [also in a british accent] A little bit of pree.

Grizzly

Why would you say that?

Charlie

A little bit of pree.

Grizzly

So you take 12 points of acid damage and you have been engulfed. So not only can you not breathe, you're restrained.

Bizly

I love my life.

Grizzly

And all of you see this, it just leaks out and then engulfs-

Charlie

Gross.

Grizzly

Engulfs Chip right next to him. And he doesn't even look at Chip. I mean, he dodges and looks at him, but he doesn't even look down on his leg or anything like that. It's almost looked like it's happening biomechanically, if that makes sense.

Charlie

Oh, I see. Like, automatically or something.

Grizzly

Yeah, without his... Yeah.

Charlie

Mmmh. All right.

Grizzly

So next up in that case is going to be Felipe. Of course, Felipe is not going to let you go down like that. So on Felipe's turn, he knows he's not strong enough to pull you out himself. So he's going to take the help action and essentially wait until your turn to assist you to escape if you choose do so. He's like,

Felipe

Uh, grab my head, Chip. Oh, my fucking god. He's going to eat you.

Chip

[screaming with hand over mouth]

Grizzly

He's freaking out. His legs are going up and down like he's freaking out, like a fucking comical cartoon frog. He's like,

Felipe

Oh, my fucking god!

Grizzly

He's holding his hand out. Okay, that's the end of his turn. Next is Dr. Ooze. And what he does, as Chip is being dissolved, he holds out his staff, the staff with the two snakes that wrap around it, the golden snakes. And then both of them, both of those snakes, begin to move until they come out. And then two of them shoot out towards Jay, who is the furthest away, right? You shot him with a gun.

Condi

Yup.

Grizzly

And he's going to roll to hit with that.

Charlie

Protect Jay at all costs.

Grizzly

Thirteen to hit, assuming that does not hit.

Condi

That does not hit, no.

Grizzly

Which means you're able to dodge out of the way, just barely miss these snakes that come for you. And then they retract into the cane once again, and he uses his other arm to... You're only ten feet away from him, Goobleck?

Charlie

Yeah, it'll only be ten feet.

Grizzly

You watch as the arm, a little bit of it leaks out, and it seems to be very fast, almost like a sonic punch snaps, but it reaches much further than you were expecting, and it's going to be able to make it to you. I'll just roll to hit that.

Charlie

Roll with disadvantage as well because I'm taking the dodge action.

Grizzly

Fourteen to hit. I rolled really low. I don't think it's going to hit anyways.

Charlie

It does not hit, no.

Grizzly

All right, so that's going to be the end of his turn there.

Charlie

I just make a hole in myself as it blasts through and retracts.

Grizzly

Does anybody say anything before the initiative restarts here? He just like, chuckles to all of you. He's just throwing things out here. It's not like he's putting in much of an effort yet.

Bizly

Yeah, I'll say something.

Chip

[inaudible screaming from behind hand]

Grizzly

He looks down and he says,

Doctor Ooze

Oh, I didn't see you there. Quite a beautiful polished floors, isn't it?

Grizzly

He's waiting for you to say your name.

Chip

[mumbles behind hand]

Grizzly

He just nods at you. Okay. Yeah.

Condi

Okay. So Jay falls to the ground to dodge this, and as she does, she's standing up, but she reaches into her pocket and pulls out four bullets and also the packet of black sand, and she flicks the bullets open, and she's going to dump a bit into each one and close them up and load them into a revolver and just aim true.

Grizzly

Nice.

Condi

And I'm going to cast.

Grizzly

So coated goo bullets into the black sand, into the revolver. The absolute crazy cracked, crafted mixture, what's going to happen? Do you even hit though?

Condi

And I cast Scorching Ray at third level.

Grizzly

Is that a save or a hit?

Condi

It's to hit. So I get four of these.

Grizzly

Four of them?

Condi

First one is 24.

Grizzly

That hits.

Condi

Second one is 13.

Grizzly

That misses.

Condi

Damn, that's 10.

Grizzly

That misses.

Condi

Sixteen.

Grizzly

Sixteen just misses. Damn it. Fuck.

Condi

Only one.

Grizzly

Hey, can I give you DM inspiration.

Condi

Yeah, do it, man.

Grizzly

Hey, I'll give you DM inspiration.

Condi

On one of them?

Grizzly

For using the black sand. Yeah, on one of them.

Condi

Surely this roll is better. That's a 20, dirty.

Grizzly

Yes!

Condi

Okay, two of them hit.

Grizzly

So two of them hit.

Condi

Okay.

Grizzly

Go for it.

Condi

She pulls out the gun and she shoots four times straight at them. Instead of bullets coming out, these just insane explosions. Imagine just this red line goes straight where it's going, and then the red line starts exploding as it goes across.

Charlie

Oh, that's awesome.

Grizzly

Absolutely awesome.

Grizzly

It's going to do seven, 14 plus 1D8 for the arcane spellcasting thing.

Charlie

Surely add the 2D6 for Goobleck bullet.

Condi

And 2D6 for Goobleck bullets. Yeah surely.

Charlie

Yes surely Goobleck bullets.

Grizzly

2d6 is quite a blah, isn't it huh?

Condi

It is. So that's six plus 14. 20 damage.

Grizzly

Twenty damage. All right. Is that it or is there the other one?

Charlie

That's a lot of damage those have done. Fuck.

Grizzly

Hmm I might have to rethink my strategy.

Charlie

I might need to start saying no.

Condi

I believe all I can do right now.

Grizzly

No, dude. I just say yes and make the enemy stronger.

Charlie

That's the way, man.

Grizzly

DM advice bro, get out.

Condi

Actually, you know what? I'm going to make some magic stones for the shits of it. I don't know if I'll ever use them, but that's fun. I just turned some stones magical in my pocket.

Grizzly

If that's the end of your turn, Goobleck, you are up next.

Goobleck

Jay, feed me the special sand.

[laughter]

Condi

Can I do that as a bonus action instead of the magic stones?

Charlie

This is just flavor.

Grizzly

Yeah, I'll allow it. Go for it. You can have magic stones as well. This is on his turn, just I'm going to say this is his object interaction.

Charlie

Yeah, Goobleck opens his mouth wide over his basically whole face. You see his eyes on the back of his head.

Condi

Yo, fuck it. I'm going to say I have some magic, some of the black sand and little capsules, little balls. I lob one into his mouth.

Grizzly

Yeah, so you put them into vials and stuff?

Condi

Yeah.

Grizzly

Some vials you picked up in the laboratory on your way through.

Condi

I just lob one into Goobleck. Do I need to aim for that? Or does it just go in?

Grizzly

No.

Condi

Awesome.

Grizzly

No, I just say you guys get it.

Goobleck

The difference between me and your friend, Gillion, we both love eating sand, but I digest it.

Grizzly

And you see as, I'm going to activate Goobleck's Eldritch Claw tattoo. But what you see is you see the bright flare of combustion inside of him as you start seeing these small explosions that work their way down onto the tendrils. And you see as his eyes become the shape of stars that are combusting. And now he has these big exploding tendrils, and he's going to go for...Can I try and break Chip out with an attack?

Grizzly

No, it's going to be strength no matter what. That's just how it works.

Charlie

Damn. All right. I'm not strong. In that case, I'm just going to try and beat this shit out of this guy. So I'm going to take my two attacks. First one is a 20 to hit.

Grizzly

That hits.

Charlie

Second one is only a 13.

Grizzly

That misses.

Charlie

Okay.

Grizzly

Just whiffs. Whiffs is a better word.

Charlie

This first thing, absolutely, you see as the goo at the end starts to expand with a pressure, and as soon as it cracks against his head, it explodes into this black powder, which detonates further. And that's going to do ten magical bludgeoning plus seven lightning, 18 damage. And I'm going to use flurry of blows.

Grizzly

Okay. Everyone's attack has been magical so far, correct?

Charlie

Yeah.

Grizzly

Good, good, good, good, okay.

Charlie

DM, do I get any extra damage from black powder? I don't fucking know.

Grizzly

It was just flavor wasn't it for your...?

Condi

It's just kind of flavor I imagine.

Charlie

Damn.

Grizzly

From eldritch tattoo.

Charlie

Okay my two extra attacks from flurry are an 18 and sorry a 28 and 26.

Grizzly

Both of those hit. Absolutely. Tell me total damage at the very end.

Charlie

Forty-eight.

Grizzly

Forty-eight total damage?? Wow.

Charlie

Yeah, out of all of those.

Grizzly

Wow!

Charlie

And Goobleck is going to take his 50 feet of movement, and he is going to [whoop] zip off over and around, if I can, jumping onto the hourglass. So I'm looking at him through the hourglass. So if he'd want to hit me, he'd need to hit the hourglass, if that makes sense.

Grizzly

Yeah, I guess. You punched from ten feet away, right? So you never got within five feet?

Charlie

Exactly, yeah.

Grizzly

Got you, cool.

Charlie

Then I dip out. That is going to end my turn.

Grizzly

So you rush around, you circle around. It takes your entire movement. This is a big fucking room. And you're on the other side now through the hourglass. And once again, you see that very elegant, exquisite, tall as well, slender-framed archfey that you would recognize. Not recognize, but you'd know it's Celestine, who's just almost like sleeping in there with the hourglass wrapping around her figure.

Condi

He does get an attack if it's within ten feet. Yeah.

Charlie

Okay. I was wrong. It is the reach of the character. So he does get as I run around. Yeah. You could say that one. He fucking fires off a heat seeking goo tentral.

Grizzly

Well, once again, his fists are like, they like snap and they go really far. I'll just roll it real quick. 16 to hit.

Charlie

Does not hit. Barely misses.

Grizzly

I didn't think so. All right, so it misses. It whiffs and you get away. All right, so next up, he's going to take a legendary action.

Goobleck

You don't have to. You don't have to. No pressure. No pressure for that.

Chip

[muffled] No, it's all right. It's chill, bro.

Grizzly

It is a wisdom save. So, Chip, go ahead with this legendary action as you're struggling to just survive and breathe inside of this purple ooze that is engulfing you, make a wisdom saving throw.

Goobleck

If you close your eyes, you are already a part of him. Don't do it. Don't do it.

Bizly

Ohhhh, ohhhhh! It was on a 19, and it sat on the 19, and it went...

Condi

Oh, no.

Bizly

On to a three.

Charlie

A three?

Bizly

A three.

Condi

I hate that for you.

Grizzly

Because of your background, the haunted one, you're not going to take full damage.

Bizly

Holy shit.

Grizzly

If that makes sense. I'll tell you what happens. You feel this ooze that is engulfing your body. It's actually starting to get more and more around your legs and stuff. You feel it almost inject into your skin like needles. And in your mind's eye, your whole vision source the cloud, and you begin to see these memories that aren't yours out of nowhere, and you can't see anything else. And it's almost like watching cinema. And what you see is a almost like Greek Athens-inspired, styled city, but it's in flames. The surrounding area is dark. The night sky is pitch black, and you just see smoke billowing into the roads that have been cracked and exploded, and there's just a bunch of fire. And another thing that you would witness is this strange biomatter growth, almost like red, fleshy, orange bubbling growth that is just surrounding and climbing up these cracked buildings. There's people running down these streets screaming, and you watch as just a mother and child, the mother just drops, still carrying the child, but the mother's dead. She just drops right there, and you're just laying on the from trying to crawl your way down this road.

Grizzly

And it's just all these memories are just flooding into your brain, searing your mind. And these memories now stick with you. Even though you know they aren't yours, you cannot forget them. You're going take... This isn't the most horrifying thing you see. So instead of taking 30 damage, you're going to take 15 psychic damage.

Bizly

Yeah, that's fucked.

Grizzly

Anyways, so that's what happens to you. Next up is your turn Chip. This is similar to, of course, when Goobleck bestowed memories upon you, except this was horrifying and painful.

Bizly

So I'm just going to roll strength. Got a seven, but Felipe is helping me?

Grizzly

Yeah, so you get advantage because Felipe is trying to help you.

Bizly

Okay, well, I get to roll again. That was a natural one.

Condi

Oh, my god.

Charlie

Bro, oh, my god. You're going to be changed when you get out of that goo, bro.

Grizzly

I guess you can't do anything else. You're going to end your turn still stuck inside this ooze. It is still searing your skin as it-you can feel your skin start to bubble in a way, and you take 26 points of acid damage.

Charlie

Oh, my god.

Condi

Is he different? Can he different that?

Bizly

I can't different that.

Grizzly

You feel yourself being absorbed.

Bizly

That's half my health, bro.

Grizzly

Yeah, Felipe is actually this time going to try and pull you out.

Condi

Hopefully, he rolls good.

Grizzly

Yeah, right? He'd have to roll like a natural 20.

Condi

Yeah. Oh, fuck.

Grizzly

Condi

Let's go, Felipe!

Grizzly

He rolled at 17, bro.

Charlie

Let's go, Felipe!

Grizzly

He rolled at 18 minus one. Felipe, looks at you being absolutely-

Charlie

Minus one, bro.

Grizzly

Absolutely. Your eyes are starting to squint and fade as you're just getting absolutely absorbed. You're just trying to squirm and squirm and stop. He grabs your feet and he uses his little frog legs and then bounces out and you get dragged or you get freed from the ooze that is leaking around. You guys get... You're probably about ten feet back from... Actually, you probably have

to stay within five feet of him. But anyways, it looks cool. You jump really high up and then you land on the ground. You're free of the absorb. That's Felipe's turn.

Bizly

I plop back on the ground.

Chip

Gah! Felipe, I've seen some things.

Felipe

Oh, dude. I cannot fucking believe, did you see what I just did?

Chip

[crosstalk 00:55:54] The mass, the pulsing mass, the pulsing mass.

Felipe

[crosstalk 00:55:55] Oh my god, I'm a hero. I saved your ass. I fucking saved you, dude. You owe me. You owe me life right now, man.

Bizly

I grab his face and I pull it up to mine.

Felipe

[crosstalk 00:56:07] You fucking owe me dude.

Chip

[crosstalk 00:56:07] The pulsing mass.

Grizzly

What? What did you say?

Bizly

The pulsing mass.

Grizzly

He looks at you and he's terrified. Felipe rolls a wisdom save.

Bizly

I look no different than normal because I'm always fucking-

Charlie

He's like that.

Grizzly

He succeeds. He's not frightened of you. Anyways, next up after Felipe is going to be Dr. Ooze. Now, Goobleck, you are at least 30 feet away on the opposite side right now.

Charlie

Yeah.

Grizzly

Jay, you are within...how much?

Condi

Where ever we would have started at so probably 30 feet.

Grizzly

So you're still about 15, 20 feet away.

Condi

Yeah, 15, 20 feet.

Grizzly

I think I actually said 20 feet. I don't remember, but it is about your-

Condi

You did say 20 feet from the hour glass, so that's where it'd be still. I haven't really moved since then.

Grizzly

And Chip is right next to him with Felipe. So with one of his arms, he's just going to smack down, hit Chip as he's on the ground next to Felipe. With the other arm, he once again extends his cane towards you and those snakes shoot out and try and wrap you up Jay. I don't think they could... Actually, could they? They could reach Goobleck. It just might be a little difficult with the gyrating hourglass. So I think for now it'll be Jay because he can tell that Goobleck likes them. For Chip, the attack is 23 to hit. And for Jay, 14, bro these dice, dude, nothing is rolling right today.

Condi

[laughs] Super against Chip.

Grizzly

I don't mean to single you out, bro. The snakes zip out-

Bizly

No, it's okay.

Grizzly

And they pass both of you. Both of them split and they pass your head, but you managed to duck before they seem to wrap around and try and grab you almost like a lasso in a sense. But, Chip, you did get slapped, and you are going to take seven points of bludgeoning damage plus an extra six points of poison damage.

Bizly

So 13 total?

Grizzly

Mmmh and for now, that's his turn. So top of the round, Jay. You can tell that when Goobleck slapped him earlier and you've been doing your attacks as well, that the purple veins that are on his head almost seem to widen, like cracks being made worse, and the purple ooze is just dripping out from underneath.

Condi

Okay. Jay, just as flavor, I'm not actually moving, but she dashes to the side to dodge these snakes, and she's going to take off her hip sack, whatever you want to call it. She has the fucking bag around her hip, and she's going to throw it in a centralized location near everybody and yell to Chip.

Jay

Chip, you need to be more careful.

Chip

I'm trying my [fist connects with his face].

Bizly

I get punched in the fucking face.

Felipe

I'm a hero. I'm a fucking hero. Jay, did you see that shit?

Jay

It was awesome man.

Condi

Jay pulls out a little button and she presses it, and out of the bag, protrudes this little metal box that starts shaking. Then this sound wave blast hits everybody in the area. It is going to... everybody gets 11 temporary HP.

Charlie

Everyone?

Bizly

Woah!

Grizzly

Including Dr. Ooze?

Condi

Not including Dr. Ooze. All our allies.

Bizly

Holy shit. You would see that after he fucking punched me, it was like blood just coming out of my nose and shit all over. I'm fucked up.

Grizzly

Yeah, you all You would have also noticed that while Chip was inside of that ooze, whenever he was getting absorbed and stuff, the damage he took was repairing Dr. Ooze in some way.

Charlie

Oh, shit, okay.

Condi

And that is my action and bonus action.

Grizzly

It's another one of those back-end head slaps.

Condi

Absolutely. Just proud. And you can see that he's also like... I mean, your natural one doesn't even matter here because he's been proud to watch Goobleck be this creature of like, sentience built from the plasma that he's made. And anyways, so that's his legendary action that I was going to use to damage you, but instead didn't. So, Goobleck, it's your turn.

Condi

I'm cool with that.

Charlie

Guys, we just need to keep coming up with shit to say, right as he's about to say his thing. And as long as it's cool, we'll make him do it. Grizzly

Goobleck, I want you to level up.

Charlie

Holy shit!

Grizzly

As he grows, almost like a few... Like a size larger, almost. Not a size larger, but you start to expand and you absorb this potent plasma that not only you were made out of, but this plasma itself inside of these tubes has evolved and been curated even more since your creation and you're absorbing it.

Charlie

Holy shit. Okay.

Goobleck

I have become more powerful than you can possibly imagine.

Charlie

Do I become physically bigger as well, by the way?

Grizzly

You can be if you want. I wouldn't say you're bigger than medium size yet.

Charlie

This is not what I expected. This is fucking crazy. That is going to end his turn. He's basically locking eyes with the Doctor. But you see, as he's growing, I don't know if I can say this. I would say if Jay and Chip are watching, they would notice that he does have another eye open watching the hourglass with Celestine in it.

Grizzly

Also seems to be in a deep sleep still. You can tell the magic is draining. It's powering the liquid that is inside of this tube. You can tell that whatever you're absorbing is filled with arcane energy.

Charlie

That's probably my turn because it's pretty crazy. That'll end my turn.

Grizzly

I'll let you use the rest of the round and stuff to figure out what you're going to do. After that, of course, Jay, you only ran 20 feet away?

Condi

I only ran 20 feet, yes.

Grizzly

Second legendary action. Natural fucking 20. I shouldn't be popping off.

Charlie

Jesus Christ. Oh, my god.

Condi

Why is it only on attacks?

Charlie

Oh my fuck.

Condi

Please stop.

Grizzly

It's not on an attack. This time, the snakes actually secede.

Condi

Wait, is it 20? Is it a dirty? Is there any modifiers that 20 is?

Grizzly

No, it's a straight up natural 20. I rolled the 20 on the back.

Condi

What if I used shield and then had a 20 for my AC. Would that do anything for me?

Grizzly

Oh, it would be a 29.

Condi

Okay, no matter.

Grizzly

Anyway, so here's what's going to happen. You take seven points of this constricting bludgeoning damage as these metal snakes wrap around you and squeeze your arms together. And then you feel yourself get yanked back.

Condi

Oh, fuck my life.

Grizzly

And you are grappled. So now you are once again right next to Dr. Ooze, and he just quietly whispers,

Doctor Ooze

Isn't it marvelous? You see as the plasma that Goobleck is made out of mixes with the plasma imbued with the power of the archfey, causing him to grow. The reaction here is ground-breaking.

Jay

I'd say it's rather awful.

Doctor Ooze

Well, you don't know shit.

[laughter]

Condi

Yeah okay.

Grizzly

Next up is going to be Chip.

Bizly

Baby boy! Baby boy!

Chip

Felipe!

Grizzly

He's like 30 feet away.

Bizly

Okay.

Grizzly

He's like running towards you, but yeah. Oh, no, sorry. He's only ten feet away. I'm stupid.

Felipe

Baby boy!

Bizly

I would see Jay being grappled, right?

Grizzly

You can move and look around the hourglass since you're on the opposite side and see that.

Bizly

Jay, who just called for me, I'd move over and look around to see that.

Grizzly

You know what happened to you when you were absorbed in this goo, so you know you don't want it to happen to her.

Bizly

I want to grab this sword, pull it back behind me, and just let it scrape across the ground.

Grizzly

Because you ran so far away, though, I don't know if you're going to be able to make it to Doctor Ooze from here.

Bizly

I can bonus action dash back. So it's like...

Grizzly

Okay, yeah. You pass Felipe who's trying to help you.

Felipe

Baby boy. Motherfucker, dude. I can't run that fast.

Grizzly

I think he's also still exhausted. Wait, no, he got a long rest. He's just one point. Wait, how many points? Two points now? Probably two points of exhaustion on Felipe.

Felipe

Motherfucker.

Bizly

I just want to understand something. If I cast Glacial Blade, does that actually... Do I do my full weapon damage as well, or is it just...

Grizzly

Charlie?

Charlie

Yeah, you do. You can do sneak attack on it as well.

Bizly

Okay. As I'm running towards the Doctor, this Destiny's Blade scraping against the ground.

Charlie

Hell, yeah, bro.

Bizly

Running past all of this machinery. I want maybe for the steam to start moving towards the blade, whirring around it, hardening with an ice. As I'm running towards him, I would just say,

Chip

Let her go!

Grizzly

All right.

Bizly

And run up and slash down onto him. Oh, that's a 22.

Grizzly

A 22? Here's what I say, bro. I'm going to give you inspiration so that you can roll with advantage.

Charlie

That's awesome.

Charlie

It doesn't hit?

Grizzly

No, just roll with advantage from the inspiration, from the fact that you are running into battle despite where Chip is at mentally.

Bizly

Okay. No better, but yeah.

Grizzly

Okay. Excellent.

Bizly

Okay, so 13 plus 22.

Condi

That's 35.

Bizly

Thirty-five.

Grizzly

Thirty-five points of damage. That's nuts.

Charlie

God damn. Hell, yes.

Bizly

It's no 60 points of crazy funny bullet damage but it...

Charlie

We do our best out here.

Grizzly

You drag Destiny's blade on the ground and you raise it up and you go and you strike into him and it strikes true. You almost like, slash through one of the arm and you see that purple ooze leak out of the wound. Go ahead and roll an extra D10.

Charlie

Holy shit! Nice!

Grizzly

As this blade, not only does it burst with ice energy, it glows this vibrant golden glow in front of you as you strike. I want you to just roll that extra D10. That's a four. With that four. In that moment, as you hit, Jay, go ahead and roll a strength check.

Condi

Absolutely.

Grizzly

With advantage to see if you're able to break free on reaction just because of what's happening.

Condi

Wow, 18.

Grizzly

With this, you break out of the grapple that the snakes are constricting you with. And Chip in your mind, you hear, as the time around you begins to slow a bit.

Destiny's Blade

Forgive me, but I cannot stay any longer, for I must return to my bonded wielder.

Grizzly

And that sword disappears in golden dust, leaving that gaping gash of a wound in Dr. Ooze. And time just speeds up again. And you guys are basically flanking Dr. Ooze, one in front of him and one behind.

Bizly

As it speeds up and this this sword [pffft] out of my hands, I'll just to fall to the ground in front of me and trying to get myself back up. Obviously, on death's door, for sure.

Grizzly

Next up is Felipe, who runs up behind you and uses his action to cast cure wounds. And he says,

Felipe

Hey man, that was sick.

Chip

Thanks.

Felipe

You hit him so hard, the sword burst.

Chip

Yeah, something like that.

Grizzly

I'm going to roll Cure Wounds for you real quick. Actually, I'll do lay on hands instead and give you the full 10 points just because it'll actually be correct. So he touches you and you feel that very familiar essence of Gillion, that same Paladin power, for a lack of a better term, just gently, like a friend just patting you on the back, heal you up for 10 extra points. And that brings us to Dr. Ooze, who before his turn, at the end of Felipe's turn, will take his last legendary action for the turn. And he, once again, sinks to the floor rapidly, disappearing from Chip and Jay's sight, and Felipe. And Goobleck, right below you, you see him rise out of that ooze that's pouring onto the ground.

Goobleck

Oh, no.

Grizzly

And he looks up and he says,

Doctor Ooze

Isn't it magnificent, the power that you feel growing inside of you? Goobleck, I believe our playtime is over. It is time for us to leave. I have set my sights on a new area to research.

Goobleck

Jay, what the fuck did you tell him?

Jay

I didn't say anything!

Grizzly

Using the legendary action to teleport, now it's his turn. He's going to... How do I explain this. Here's what you see, Goobleck, below you.

Charlie

Okay.

Grizzly

There's a blast, a gust of wind that emanates or explodes from his feet where he stands, shooting all of that ooze, that plasma, the purple liquid, off to the side, splattering against the wall, even splattering a bit on that hourglass behind you, behind him. And like a shell, his skin begins to fall off and crack. And under it is that same plasma, perfectly sculpted, still look like him that you're made out of. And he begins to grow and grow, multiple sizes larger.

Grizzly

And you see the cane.

Goobleck

Fuck that was our plan.

Grizzly

The cane that he's wielding begins to expand into this long, golden, rod where the two...

Charlie

[chuckles] Sorry, sorry.

Grizzly

Shut up!

Charlie

I'm sorry!

Bizly

My golden rod, woah.

Grizzly

This long, golden, thick rod. I'm just kidding.

Charlie

Yeah!

Grizzly

Where the snakes not only wrap around it at the tip, but then wings begin to sprout at the very top, where the snake now come to life almost and begin to sit upon. And you watch as he twirls this long rod behind him and holds it. And as he holds one arm behind him, the shirt, like the suit, the suit top begins to rip off as more of that skin begins to crack off and the ooze begins to almost like a volcano, sort of erupt out as it begins to grow these different sizes larger. And there's another concussive blast of force that just goes throughout [explosion sound] the entire room. So I need everybody at the moment to roll a dexterity saving throw, including you, Goobleck.

Condi

Oh, that was almost a one. Okay, 26.

Charlie

I only got a 13.

Bizly

Ten.

Grizzly

Jay, you only take five. Goobleck and Chip, you take 10 points of force damage. But with that, not only does the skylight of the roof burst open with that blast, the steel walls themselves, the transmutation magic fades, and you see that stone, and it all just blast away, revealing this almost like a bright night sky around you, and you're now only standing on this disk of a platform at the very top, the pinnacle of this tower, wherever you are.

Bizly

Has he casted a spell?

Grizzly

No, this is not a spell at the moment.

Bizly

Not a spell?

Grizzly

No, this is not a spell. You almost see as you're seeing the Doctor evolve in front of your eyes, and with the force that blasts the walls away, it also shatters that hourglass. And you see Celestine fall limp in the middle there, still sort of unconscious, but everything just blasts away, creating this very open platform at the top of this tower. And as he's growing, he raises one staff up, like the staff up, and then meets with his other arm. And as he lowers them back down to his side, you see the arms begin to multiply.

Condi

Oh no.

Grizzly

One, two, three, four, five. Until it seems like he has 50 or so arms just on the back of him, almost like a Buddha statue-inspired. And one of the eyes where you struck him in the head and that ooze is leaking out, the eye is now this bright, glowing green. And this is where you see the ooze that was standing around him, that you that we're dropping out of the pipe begin to just swirl around.

Condi

He has an aura?

Grizzly

And this is-

Charlie

Oh, shit. He's got an aura, guys. This is serious.

Grizzly

And this is what you guys are now looking at.

Condi

Oh, god. You have art for this too, shit.

Charlie

Fuck, he had phase two art.

Bizly

Holy shit.

Charlie

Oh my god. Jesus Christ.

Condi

We're going to die.

Bizly

He's got nipple piercings!`

Charlie

Bro, where did those come from?

Goobleck

Did you have those on under the shirt?

Bizly

So cool.

Charlie

That's literally sick.

Grizzly

He speaks out, almost ending his turn. He says,

Doctor Ooze

From this test, I deduce now that my research is incomplete, and I can develop this plasma and this species that I have become the first successful human of. I can develop it further. So if you'll excuse me, Goobleck and I have places to see.

Grizzly

And he means that quite literally as a pun. So next up top of the round is Jay. This is no longer a medium seven-foot tall man. He's gargantuan. Fucking large, massive. You look like you're, I don't have the fucking reference there, but pretend that you are as big as his calf. That's how tall you are, okay?

Condi

Holy fuck.

Grizzly

He's big. It's like he just became [crosstalk 01:30:22] Genie from Aladdin.

Condi

[crosstalk 01:30:23] He's like a god.

Charlie

Oh my god.

Grizzly

Yes. Huge, fucking big. He's expanded and he's made out of all this ooze and it's fucking intimidating, looming over you guys. So what do you do, Jay?

Condi

I'd like to look back at Celestine, actually.

Grizzly

Unconscious, like very dainty and elegantly just laying on what is now just those four thick cord-like wires that were running underneath the hour glass, surrounded in glass at the moment, she is. And again, this platform is almost teetering at the top as it's balancing on whatever it was, whatever the base foundation of this tower was. It's now been almost destroyed in a sense, where it's no longer stable, but it's still upright.

Condi

Yeah.

Grizzly

And she's in the very center where the hourglass was.

Condi

Grizzly, do I get the vibe that I could, that I could, awaken her or heal her and awaken her?

Grizzly

I don't know.

Condi

Is she artificially unconscious?

Grizzly

Artificially? I don't know what that means, bro. If you want to do something, you can certainly try.

Condi

Shot the dark. Might as well try it. She's powerful, apparently. I'm going to turn and run to Celestine, I guess. I'm going to try to use Cure Wounds on her and see if she awakens.

Grizzly

So go ahead and roll Cure Wounds.

Condi

Okay. I'm going to use it at second level. That's 15 HP that she would regain.

Grizzly

When you heal, you can feel that your magic reaches or your Cure Wounds reaches and assists Celestine, but it doesn't seem to bring her back from unconsciousness, if that makes sense.

Condi

Okay.

Grizzly

And there's also this very calming, welcoming energy that almost acts as a barrier between your skin and hers. That just surrounds her. Magical, of course, in essence, so...

Condi

I would like once more, again, for my little rucksack to do a burst or temporary HP. I think Chip would be in range for this one, too.

Grizzly

I will say because of the giant explosion of concussive energy, it probably got knocked in between. How far is the range again?

Condi

It's ten feet, and it can move 15 feet. So if it gets knocked to 15 feet, it can move back.

Grizzly

Yeah, you can move it back.

Condi

Okay, then. Eight HP temporary for both me and Chip and Felipe.

Felipe

Boom. Dope. That's awesome. For once, the boss doesn't be me up. It's as if he doesn't need to know I'm here.

Jay

It's good. You could die, that would be bad.

Felipe

Uh Jay, I think we're all going to fucking die, man.

Grizzly

He's looking up.

Felipe

This ain't no fucking pirate shit, dude. This is nothing like what we have in our world. The fucking leviathans aren't this big. Wait, are they?

Jay

I don't know, that's a Gillion question. I've never seen one.

Condi

Fck that guy.

Goobleck

Give me his blood, I tell you.

Grizzly

Goobleck.

Charlie

Goobleck falls to the ground in a puddle, essentially and reforms-

Grizzly

He's staring directly at you. You can tell his focus is you now.

Charlie

You see as under in Goobleck is a twinkle of iridescent light.

Goobleck

This is not your place. You are man, but you are not Goobleck. You don't belong here. You very bad, and you should go away. The real person that needs to be here needs to-

Charlie

And Goobleck turns to Celestine, and the feat that I took is fey touched, and the spell that I took is command. And Goobleck says,

Goobleck

Wake!

Grizzly

Wake up. Wake. Interesting.

Charlie

As he basically says that, and you see as an outline of the vibrant colors of the feywild flash in his core. And he says that with force towards Celestine.

Grizzly

Epic. So I don't even want to look up if you can command an unconscious creature or not. I'll roll for it because there's no way that she's able to consent to be willing as she's unconscious. So I'll just roll to see if the magic pierces the... Yeah. What's your DC?

Charlie

Well, I didn't cast spells until five seconds ago. My DC is 15.

Grizzly

That's a two.

Charlie

Oh, shit. Okay. Wooo.

Grizzly

And with that, as you explain that swirling iridescent magic that emanates from you and reaches over to Celestine and with the combination of Jay healing whatever internal injuries and the like that she has, and you using your fey touched magic to command.

Charlie

From her, her magic, yeah.

Grizzly

Her magic, Which is incredible. That's part of the... It just makes sense. And you see Jay, the eyes slowly open.

Condi

Holy shit.

Grizzly

Looking directly into yours and her eyes are foggy in a blind sense, if that makes sense.

Condi

Yeah.

Grizzly

Kind of clear and coded over in a way. But they're just beautiful silver eyes. I'll roll her initiative. Natural one.

[laughter]

Condi

Yeah, that adds. Okay.

Grizzly

Yeah, it that makes sense.

Charlie

The last thing that Goobleck says to Chip and Jay is,

Goobleck

Please don't let me go.

Grizzly

He responds,

Doctor Ooze

This cuts our time quite short, Goobleck. I do not have the time to waste dealing with this archfey's revenge and rage.

Goobleck

Too bad I still have 50 feet of movement, motherfucker!

Charlie

And uh-

Grizzly

He's near you so...

Charlie

He just runs.

Condi

When you say that, by the way, Jay doesn't say anything back, but she looks at you with a very serious look as if she's not going... You would read that she's not going to let that happen.

Condi

Yeah, sweet. Yeah, Goobleck says that very dramatically, and then he's going to fucking still run away.

Goobleck

Fuck this.

Charlie

And he's going to get behind Chip and Jay.

[Discord disconnect noise]

[laughter]

Charlie

That's the last thing you hear. The guy disappears. The Doctor is gone.

Grizzly

That was such a fucking accident dude.

Goobleck

Bro, did just DC?

Grizzly

Anyway, so he's gone, Yeah, the Discord disconnect sound. All the music sounds. Holy fuck, dude. Okay, anyways. Once you do that, and he notices and he says those words, the next thing is...

Doctor Ooze

I know now that this power can be even greater. So, Goobleck, if you don't want to bring prosperity, I mean, just look at how much you've evolved if you don't want the rest of life in this.

Charlie

Goobleck looks down and sees that he now has four fingers.

Doctor Ooze

If you don't want the span of the sentient creatures of this multiverse to prosper and never be consumed by entities that only live to destroy and consume. Then I will not-

Goobleck

But that would you do, bad doctor.

Doctor Ooze

Then I will find a different ingredient to add to this mixture other than yourself, Goobleck. And perhaps, I can create something I'm even more proud of than you.

Grizzly

And he's going to use his legendary action, like a second one of this round.

Charlie

Oh, fuck off. Man, straight up become god and then dip. What? Oh shit. That's so bad, dude. Why don't you just tell him everyone in Mana was wimpy? Why don't you say they were all so lame?

Condi

I didn't know.

Grizzly

Absolutely, bro. You... I mean, either... Anyways.

Condi

I just wanted to talk shit to him, not really build up Mana as like this.

Charlie

It's just tadpoles. It's just tadpoles. It's just tadpoles. It's just frogs. There's only frogs.

Condi

Well Felipe.

Grizzly

He spins around that golden rod all around him, creating this gusts of winds, almost like a ball of air. But it gets slowly the air, like the tornado or tornado ball or whatever, slowly It becomes to meld and mix with this purple ooze. And it becomes this giant constrictor snake like you see in the art, and it just bites into time and space itself and opens this rift.

Charlie

The fuck??

Grizzly

And on his turn, he will be leaving. But next up is Chip. He has one more legendary action where he can... You know he can move at any point in this round.

Bizly

How close am I to him?

Grizzly

You and Jay are probably at least 60 feet because you're on the other side of the room. Or Jay is in the middle now, you're on the other side.

Condi

Can I talk to Chip in character?

Grizzly

Yeah, of course. I said you guys could. You can also say anything you wanted to Dr. Ooze.

Bizly

I'm just like, kneeled down on the ground in front of Goobleck, like trying to catch my breath.

Grizzly

It's definitely an overwhelming amount of power.

Jay

Chip, do you have something unique that you can put on him, like throw him, stick to him, something?

Chip

I got nothing, Jay.

Jay

Oh, fuck.

Grizzly

Chip looks definitely beat up.

Bizly

I just fall down like, further to my knees, and that's it.

Felipe

There there buddy. There there.

Charlie

Oh shit.

Felipe

It's all going to be okay. Big bad guy is going away. Honestly, I say let him fucking go, dude. This is no way we can handle this. I have 24 HP wait, how much? Oh my god, I have 37.

Goobleck

37 what?

Felipe

Health. That's how vitality inside of me. I feel like if I had to give it a number, it would be 37, and he could probably do that in one punch. He has 100 arms, man. I don't fucking...

Goobleck

If you had to, Felipe, if you had to give him a number of vitality, what number would you give?

Felipe

If I had to guess, probably around 300.

Goobleck

Oh fuck off. Who designed this shit?

Felipe

He was pretty big. I mean, big guy who got tons of shit. I'd say at least double what he had.

Chip

There's nothing we can do here, Jay.

Jay

Just let him leave and... Shit.

Bizly

I just look up at Jay for a moment and I make that eye contact.

Condi

There's some despair with what's happening in Jay's face. She looks incredibly concerned about what's happening.

Bizly

I just look down to the ground and that's it.

Grizzly

It's Felipe's turn. Guys, what would you like Felipe to do?

Goobleck

Kill him, Felipe.

Jay

Felipe, you must strike him down.

Goobleck

Finish him! Finish him!

Bizly

I think it's pretty obvious that we can't. At least to me, at least Chip feels like there's nothing he can do here. If you're asking what Chip would want Felipe to do, not get himself killed, really.

Grizzly

Yeah. Epic. Love that answer. He rolls up his skin like a sleeve.

Charlie

What the fuck?

Condi

What the fuck? Felipe...

Grizzly

He points at Dr. Ooze and he says.

Felipe

You, motherfucker.

Grizzly

He says it really quietly.

Charlie

He doesn't even hear it. You'll never get away with this.

Felipe

We'll fucking see you again, you son of a bitch. And when we do we're going to be level fucking 15, probably. If I had to give it a number.

[laughter]

Condi

At the end of-

Condi

Felipe is my favorite meta.

Grizzly

Yeah, actually, he's going to-

Condi

I love Felipe.

Charlie

I'm going to start asking Felipe more meta questions.

Grizzly

You should. It's really funny. He's going to Cure Wounds Chip again. You get nine points of healing back. And unfortunately, it is Dr. Ooze's turn.

Charlie

Do I not get a turn before Dr. Ooze?

Condi

You went before Chip.

Grizzly

You went after Jay. You healed.

Charlie

Oh, shit. I don't get to...Fuck.

Condi

That's how I feel, right? He opened this portal in a legendary action, I can't do anything about it.

Charlie

Damn.

Condi

It sucks.

Charlie

Yeah, oh well.

Grizzly

And with that, this gargantuan overwhelming presence of a unknown, invented artificial race that this doctor has become himself. He grabs the last, almost like this one component of the Optimum Xenogenic Bio-Electronic Ooze Transmutation Processor. And then...

Charlie

It's definitely an acronym for something. I just think he said it so fast.

Grizzly

It's not an acronym. It actually can never be an acronym. I really tried. It would be O.X.B.O.T.P So anyway.

Condi

Yeah, the T.P. is what made me.

Grizzly

You watch some of the arms grab that rift and hold it open more, and the whole body just steps through and on the other side and just hear the sounds of these ocean waves, and it all [zipping noise] closes in an instant.

Condi

Listen, I'll be honest. I didn't... I forgot we weren't in Mana right now, and I just thought he would know all about how strong people were there. And not that I was feeding him the information about that.

Bizly

Bro, it sucks to suck.

Condi

It sucks to suck, yeah.

Bizly

At this point, Chip, on his hands and knees, will just roll down onto the ground and lay on his back.

Grizzly

You also notice the moment that he leaves, all of that steel and illusionary transmutation has completely faded, and you are on the top, the very peak of this stone castle tower.

Jay

Chip, Chip you okay?

Chip

Never better.

Goobleck

We did it. We won.

Jay

Uh Not...not...

Chip

Not really.

Jay

Holy shit.

Charlie

Are there any windows in this room we're in?

Grizzly

Dude, there are no walls. There's nothing. You are standing on a disk now.

Charlie

Oh right, he just obliterated everything. Can I look over the edge of the disk?

Grizzly

Yeah, go for it.

Charlie

And see what does the rest of this place look like? Do I see any animals? Do I see the fucking King? What do I see? I'd love to know.

Grizzly

You see-

Charlie

As I peer over the edge.

Grizzly

Yeah. So what you see is the exterior of a beautiful red and golden and then stone palace, in the middle of this. Like I said, you remember when you that just arrived at the almost dollhouse doors and around you was just space, like astral? Not astral, but just stars and blackness. That's what is surrounding this castle, although you can see just barely because as it gets further away, your vision doesn't reach. Just streams of some river that surrounds the castle as well. But it's just this very vertically built, very tall castle, palace. There are exteriors of buildings that you could guess that you may have walked through, especially like... But since everything is all vertical, you have no idea. Since it's all the exterior, it's not like you see King or anything like that. But this top of the tower, the very, very, very top, almost like a penthouse of this palace, it is swaying back and forth because of the damage done to it. And you're just standing on this disk floor now. It is just slowly swaying.

Charlie

How far up are we?

Grizzly

Fucking very, falling would be death for sure.

Charlie

Okay, sick. I was just going to jump down. What a way to go.

Grizzly

Falling would be death. Remember, you guys took very long elevators, and elevators quote-unquote to get up here.

Goobleck

Thank you for not letting me be blended.

Jay

Yeah, of course.

Condi

Jay just lays next to Chip, too. Kind of exhausted from the battle.

Jay

Chip, what happened to the sword?

Chip

It's gone.

Jay

Oh.

Chip

Went back to its owner.

Jay

Does that mean...

Chip

Maybe.

Jay

Hey, Goobleck.

Goobleck

Goobleck.

Jay

You did good out there. Good job not getting in the blender.

Chip

Yeah, good job, man.

Goobleck

Tried really hard. Thank you. You did really good, shooting hard.

Jay

It's what I do best. They call me Uncle Sure-Shot. I'm taking the name.

Bizly

Chip is just staring at the sky for a little.

Jay

Well say what you will about what happened, it's very beautiful.

Jay

What do you do when free? What first thing you do?

Bizly

I look like over to Goobleck.

Chip

Whatever you want.

Jay

It's the best part about being free. Speaking of being free,

Condi

Jay sits up and looks toward Celestine.

Jay

How is she doing?

Grizzly

As you sit up and look towards, look far out on the very opposite side of this now exposed chamber, you see a tall, elegant woman, Celestine, standing at the edge, peering over, looking down around it, at her domain, you would assume, or what has become of it, and however long she's been in that hourglass. And you hear a [bird flapping] as Apple flies past your head and lands on Celestine's shoulder. Celestine looks back to where, on the shoulder the Apple landed on. And you see just that little glistening tear rolling down her face. And that's where we're going to end the session.

Condi

I was ready. I was ready to keep going.

Grizzly

I know.

Charlie

I was ready, too. I was trying to find out who the fuck was. I was finally ready.

Grizzly

I know. We could have, maybe. But I think we will leave this for next session and see where it goes. It'll be good, I think. I hope you guys enjoyed that.

Condi

That was crazy. I'm ready. I'm excited to talk about it on Just Rolled With It.

Gillion

Hey, what's up? It's me, Gillion. I'm glad you made it. I've been falling for what seems like about five months in a dark void, but now it looks like names have started scrolling in front of my very eyes, so I guess I'll read them. Jonathan Bleek, Luke Rambou, The Milk, Dovah King, Bibness, Dapper, Enoch the Joke, Percy, Frog Gus, Last of Frogus Lineage, Hollow Headed, Bre Lee. Daxie boy. Vapor. O'kerberus. I'm Butt Flusting, Agar Steeljawn. Beans. Wolfie. Jaden Grant, Joey Madness, Pippin the Magi, Sweet Cacti, Bacca Seven, Cal's the Folded Pizza Zone, The Awesome Man. Amber Curry. I. C. Sharky. Mad Made Imp. Your personal jester. Jordan, darling.

A red sus over paradise. Mr. Nacho. Wild James. Kev Senpi. I have je-died, now I am jedead. Mitchell Iverson. Mithril Gear 417. Juzambo. Boss Goat. Kevsempie. I have jedied, now I am jedead. Mitchell Iverson. Mithrilgeer417. Juzombo. Boss Goat. Grand Archer. Rikard Zinn. Artemis Loves You. Crobin's Deathclaw. Sandy 007. Applecheser. Blueblam Blop. Zerberus.
