

# Induction - Metal Lathe or Mill

## Induction - Bandsaw & Planers

Thursday 12th December

19:30 Start

5 People Maximum

If you'd like to attend the session then please add your name and hackspace number\* to the list below (note the maximum of 5 attendees)

\*We need the number so we can sort out access control. You can find your number by logging into the London Hackspace website <https://london.hackspace.org.uk/>

No	Name	HS Number*
1)	Rayan El Solh	HS35262
2)		
3)		
4)		
5)		
	Example: Toby Molyneux	Example: HS 32098

### Charges

The charge for this session is £10 - these machines are surprisingly expensive to maintain, and induction money goes a long way towards that maintenance. Discounts are available for those who find this difficult to pay – please ask your trainer if this applies to you.

Payments can be made in cash on the day, or by online payment to

Toby Molyneux  
AC 50945691  
SC 09-01-28

[https://docs.google.com/document/d/1vYDIwBQcX4PZifTWNrYRu\\_IT3ycpdXuoJysZ-suxjDA/edit?usp=sharing](https://docs.google.com/document/d/1vYDIwBQcX4PZifTWNrYRu_IT3ycpdXuoJysZ-suxjDA/edit?usp=sharing)

This induction will cover the introductory safe use of the bandsaw and both our surface and thickness planer. The bandsaw is a versatile complement to the mitre and table saws, ideal for resawing, curve cutting and intricate precision cuts. Working together, the surface planer and thickness planer are designed to produce straight, flat surfaces on rough timber and to bring them to precisely the dimensions you need.
