

Letter of Recommendation

November 8, 2025

It's my pleasure to recommend Leslie Wolfe. Leslie was a huge help in taking an instructional learning concept for my patients and turning it into reality. I came to her with a messy vision and loose ideas, and she helped organize it into a clear plan for a full series of educational videos.

She was easy to work with, quick to respond, and always asking for and open to feedback. When I asked for edits or rewrites, she made updates promptly and nailed what I was looking for every time. She kept the process simple and professional, and the end result was more than I had hoped for.

I'm so impressed with the final product and grateful for the role Leslie played in bringing this E-Learning project to life.

Best regards,

Tasha Cunningham, FNP-BC
