

POWER STEERING FLUID 424

V4205-00

PSF 424 is a mineral based fluid suitable for a wide range of power steering systems that call for a thicker fluid. It provides optimum protection in power steering systems of both foreign and domestic automobiles. It controls seal swelling and protects pump parts against wear while providing the proper friction characteristics for proper system operation.

SUMMARY OF BENEFITS

- Superior wear protection
- Reduces steering shudder and vibration
- Extends system durability
- Excellent seal compatibility

TECHNICAL DATA

CHARACTERISTICS	PSF 424
Specific gravity at 15 C	0.8740
Kinematic viscosity at 40 C, mm ² /s (cSt)	62.0
Kinematic viscosity at 100 C, mm ² /s (cSt)	10.1
Viscosity index	150
