

How to Sign-In to a Student Chromebook

It is important to remember that you are not on school wifi and signing in looks a little different

When signing into a school issued chromebook at home:

Example:

Username (email): kswick1234

(first letter of the student's first name + last name + 4 digit ID number)

Password: Student1234

(capital "S" in Student + the same last 4 digit ID number used above)

When signing in to a non-school device, you **may** need to remember to add **@avusd.org** after your username.

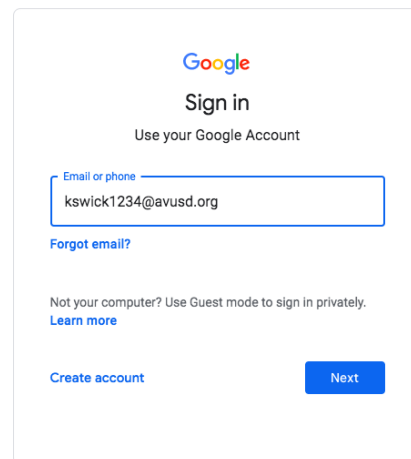

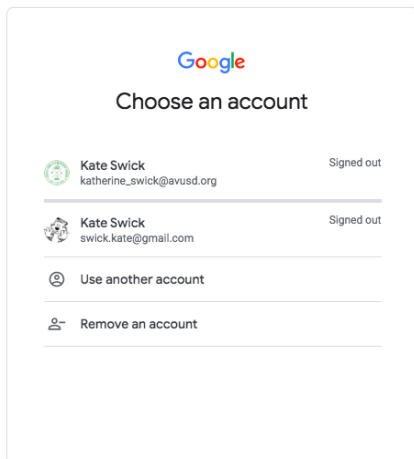

If your password does not work, please notify your teacher to help reset your password. If for some reason you are unable to resolve your issue, call the Yucca Loma Office at (760) 247-2623 or email YLhelp@avusd.org.

How to Join a Google Classroom from a Home Device

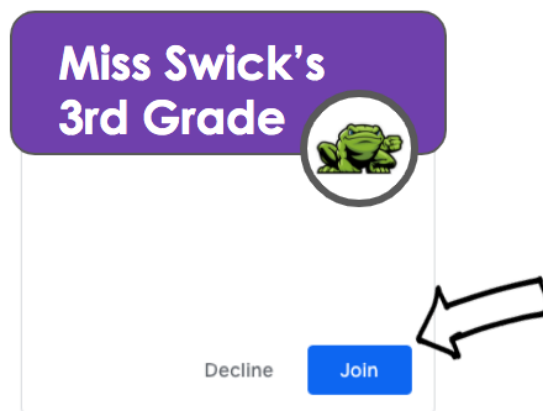

Go to www.classroom.google.com

1. If you are logged in to a different gmail account, you will have to switch/click it to "Use Another Account"
2. Type in your student email address.
Example: kswick1234@avusd.org

3. You will type in your password and follow these steps from above.
 - a. Your teacher has already invited you to his/her class.
 - b. Click **"Join"**
 - c. That's it, you're in!

Google Classroom

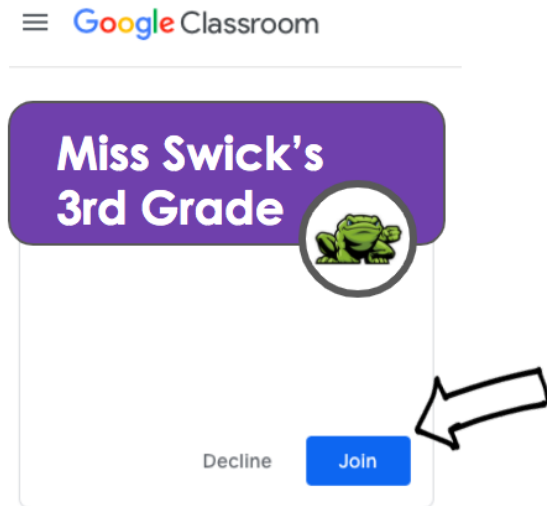

How to Join a Google Classroom from a School Chromebook

Once you are logged into your chromebook, go to www.classroom.google.com

Follow these instructions if:

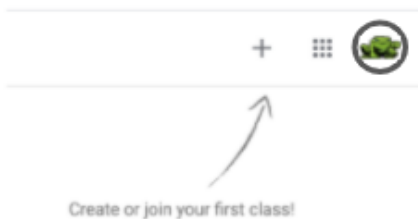

- If your teacher has already invited you to his/her class you will see this:

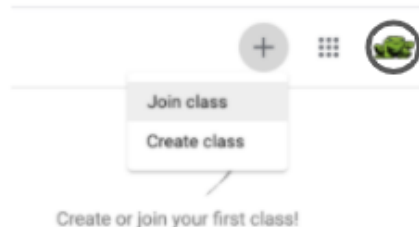

Click **“Join”** and you're in!

- If you have the Google Classroom code, follow these steps:
 - Click here to access a list of [Yucca Loma Google Classroom Codes](#)
