Nikki Thomas, Superintendent
Jimmy King, Director of Support Services

November 2024 Safety Report

We were notified that the state did not grant any reimbursements as part of the excess Safety Grant funding I had mentioned previously. There were still higher-priority needs in other districts that took up all the available funds.

The State recently approved a new total investment of \$50 million in statewide grants to improve security and make Arkansas schools safer. We will be reviewing the application when it is sent to schools to see if we will qualify for those funds.
