SUHSD | STUDENT SIGN INTO WIFI

Please follow these instructions for signing into school or district wifi from your personal device.

STEPS FOR SIGNING INTO SUHSD WIFI

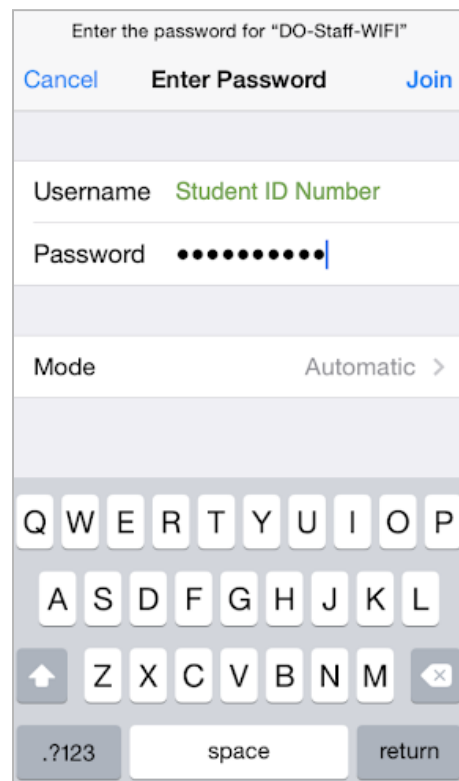

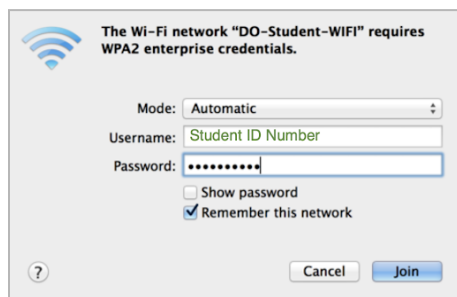

1. Go to your wifi settings
2. Click on your school's "-Student-WIFI" network

EXAMPLE:

DO is the district office. Find the one with your school's abbreviation (matching the account name above).

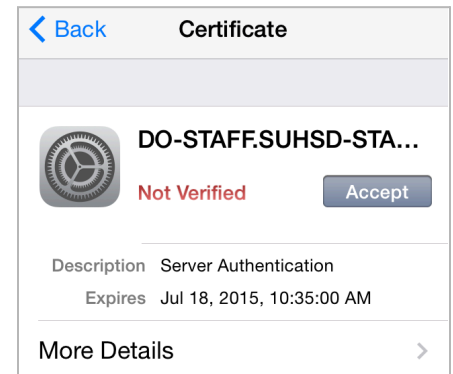

3. Type in your username and password
 - o Your Username and Password is the same as your Canvas/Google Username (Student ID) and Password.
 - o Press "Join".

SUHSD | STUDENT SIGN INTO WIFI

4. You may have to Authenticate
 - You may get a pop up asking you to authenticate or verify your account.
5. Press "Accept"

Are you using your personal Chromebook or Android?

6. When you try to connect to the student wifi, change the settings to match what you see below, depending on your device.
 - Choose your school's SSID which will have your school abbreviation-Student-WIFI.
 - Your identity is your student ID number.

PERSONAL CHROMEBOOK

A screenshot of a Chromebook's "Join Wi-Fi network" settings screen. The SSID is "DO-Student-WIFI". The Security is "EAP". The EAP method is "PEAP". The EAP Phase 2 authentication is "Automatic". The Server CA certificate is "Default". The Domain suffix match is "seq.org". The Identity is "Student ID # (Don't include @seq.org)". The Password is "Password from SEQ Google Account". There is a "Save identity and password" toggle switch which is turned on. At the bottom, there are "Cancel" and "Connect" buttons. A green arrow points down to the "Connect" button.

NEWER ANDROID DEVICE

A screenshot of a newer Android device's "CA-Student-WIFI" settings screen. The EAP method is "PEAP". The Phase 2 authentication is "MSCHAPV2". The CA certificate is "Use system certificates". The Online Certificate Status is "Require certificate status". The Domain is "seq.org". The Identity is "Student ID # (Don't include @seq.org)". The Password is "Password from SEQ Google Account". There is a "Show password" checkbox which is checked. At the bottom, there are "Cancel" and "Connect" buttons. A green arrow points down to the "Connect" button.

OLDER ANDROID DEVICE

A screenshot of an older Android device's Wi-Fi settings screen. The EAP method is "PEAP". The Identity is "Student ID Number (Don't include @seq.org)". The Password is "Enter password". The CA certificate is "Use system certificates". The Online certificate status is "Don't validate". The Domain is "seq.org". The Auto reconnect toggle switch is turned on. At the bottom, there is an "Advanced" dropdown menu.
