Unlock map areas :

- ??? shop : Rivenwell Online book from the Brains and Puzzles store in the mall (an event will trigger after you leave the shop)
- VG zone (arcade) : tutor with Alvin until your GPA reaches 2.9, after this is achieved, the next time you go to a tutoring session he will tell you about it
- Movie Theater : this is unlocked automatically, you can check the message boards to see when it does get unlocked
- GameGo : after seeing Allison at work for the first time, go to the mall and an event should trigger

General tips :

- on weekends, invite the person you're dating out by calling them (if it's Benito, you can also go to the Arcade to spend time with him), and giving them gifts/cupcakes

- exercise unlocks Tutoring with Alvin; so make sure that even if you don't have fitness as any requirement, do exercise at least once, and preferably in the first week

- unless you are on Benito's route, DO NOT reply to Snickerdoodle King's email the week before Halloween (you will not be able to choose to go to any of the other Halloween events for the other characters)

- check your email every weekend and reply to new mail unless it's stated otherwise in a walkthrough

- some events are NOT triggered by date, they are triggered by visiting areas of the map- therefore, some walkthrough information will not have dates labelling them

- even if the character who's route you are on does not need fashion, still remember to go to work semi-regularly! A lot of events, even if unrelated, are triggered by going to your workplace!

- for stats, I've set them out as " ____ + ____ ", the first one is the primary stat, and the second the secondary stat. Max the first for the default ending, and max both for the happy/extra end.

- clothing is mostly just fluff, and does not affect much; I would only recommend you purchasing it if you're on Matthew or John's route for the singular reason that you're going to have an overflow of money
