

SL: Boost your social media with this GENIUS TRICK

I still remember how you started with two cars on a small square in Rybnik.

Now you are in Warsaw and you have 31 cars in the works.

You have shown that together you can achieve a lot.

You can achieve even more by adding this to your social media.

This is adding a series of REELS on Instagram from your YouTube videos.

This will draw more attention to the channel to show how authentic you really are and what people appreciate about you.

Another idea is to improve your promotional videos, which I would prepare for you. As you say yourself, it sometimes takes you a lot of time, and in your company every minute counts.

I am attaching a sample video so you can see what I mean.

If you have any doubts or want to know more, please contact me and I will explain the details.

Best regards
