# Terms of Service

## **Terms of Service**

**Please read all the text below carefully.**

### **From Artist(pulred)**

- I(pulred) have the right to publish the artwork, its documents and video process to my portfolio, Patreon, SubscribeStar.Adult and social media.(Your commission will be part of my Patreon rewards in high resolution, PSD and WIPs.
- I retain all rights and copyright to the commissioned piece.
- I have the right to reject a commission for several reasons.
- I agree to treat the client with the utmost respect during the commission progress.

### **For Clients**

- Clients may inquire about the commission progress at any time.
- Clients may post the full, finished commission to their personal/social media sites.( You get 2 versions - web 1700px max and full quality 3000px+)
- Clients are expected to be fully aware of their financial situation before payment.
- Clients agree to only use commissioned pieces for personal use.
- Clients agree to treat the artist with the utmost respect during the commission progress.
- Clients agree to have taken a look at my works, and to agree with the art style. Do not ask me to copy another artist's style/art.
- Clients agree to not train AI with commissioned piece.

### **Payment terms**

**100%** payment after sketch approval.

Custom payment plan from \$200 more about it [here](#)

Payment accepted in USD and can be paid through [currently available services](#) .

### **Cancellation/Refunding**

Cancellation is always available before payment.

Full refund is not available in its regular form due to artists' narrow options.

Artist provides the first sketch without asking for payment to cover flaws of the refund system. Clients have the right to cancel commission after the first sketch but have no right for personal use and using it as a base for another commission. This also covers situations when customers paid for a commission that was never started - If I do a sketch for you, I'm working with you right now and till the piece is done.

### **Commercial Use**

A Purchase of Commercial rights to the artwork is optional and needs further discussion between Artist and Client.

You`re not allowed to add your own watermark to the artwork. If you post it, post with my watermark.

You`re not allowed to put commissioned pieces into **NFT** or feed it to **AI** services.

Do not claim it as your own, put credit.

### **Revisions**

- You get 3 rounds of changes on the commissioned piece included in the price. (Fee goes from 1\$ and depends on complexity)  
*Any changes can be applied at the Sketch step. Edits from the line step and further only for additional payment.*
- A fee will be added if you want something changed on the final drawing - unless a misunderstanding from my side has been made.
- If you wish for me to change something in the drawing you have previously approved, I will charge you a fee to change it.

- If your reference is unclear to start with, changes will come at an extra charge.
- It is possible to ask for a change after piece is done and time passes (from 1 month) but fee will be higher (Finding old files and changing them takes more work than doing that in real time)

### *What is an unclear reference?*

Lack of images - if you have only one picture of your character 3/4 it will be hard to work with. That's hard to draw fullbody from portrait picture.

The best option for reference is a reference sheet with a character standing in simple pose, full body, color palette and details for genitals if needed.

Concentrated text information preferable. It is easy to get lost in lots of text that is not relatable for work that should be done.

# Pricing

## ***Pricing***

### **Lineart**

**\$75**

Only line work with some filing inside to separate from the background, usually some middle gray.

### **Flat color**

**\$90+**

Lineart filled with local colors

### **Full color**

**\$150**

Lineart with flat colors, shadows, highlights and some render to polish piece more.

These prices are base for one character fullbody.

**You can upgrade your commission eventually.**

**For example**, a customer gets a lineart piece and wants it to be colored after all the work is done - we discuss it and for 15\$ flat colors will be done.

In the same way flat color commission can be upgraded to Full color for 60\$. Going from lineart for Full color works too.

To not work on a pretty old piece to me after a year is done, **6 months is the time period for a piece to be upgradeable**. To be more tidy with the files and to have room for improvement as time goes, skill is rising, prices change.

## Background

Simple (Abstract)- Free

Complex - 20\$+

## Additional:

Additional Character + 80% of original price.

A vague background character to serve a purpose (of penetration for example, just a body part with genitalia) is free!

Alternative versions option is available for an extra price starting from 10\$. It can be Clothes on/Off, Penetration/No penetration, Climax etc.

## REFERENCE SHEET

Starting from \$250

Commission that shows the full body of a character at least from front and back view.

As custom as it can be, different angles, extra outfits, portraits, items. Done with lineart and flat colors.

We can update your character's reference sheet or make new ones from scratch, which might come with an extra fee due to design work itself or lack of image reference.

Pricing for different cropping types starts from

	Lineart	Flat colors	Full color
Fullbody	75	90	150
Halfbody	60	70	120
Portrait	40	50	70

Pricing will vary depending on complexity and number of characters, complicated design, clothes, extra limbs, size of pictures(printable sizes). I don't do private commissions. A Purchase of Commercial rights to the artwork is not available.

**Deadline - 1-2 months. I send wips as I make progress (usually some sketch tries, lineart finished fully, flat colors, in the middle or the end render process - after that piece will be sent to your email with notification)**

**[Click here to be redirected to google form to order a commission!](#)**

# Payment methods

### Currently available Payment methods:

- **Paypal invoice** - most preferable option, you send your paypal email, invoice is made for you to pay.
- **Patreon** - preferable option, works with Paypal and full refund available(only full), platform that most of the people know. I make a slot tier for you with your price - you pledge tier and cancel it right after.
- **SubscribestarAdult** - recently provided commissioned work checkmark, bank card only.
- **Boosty** - Russian alternative for Patreon, works through donation or paid messages. Currently does not work with Paypal - service itself recommends to use Hipolink for paypal users.
- **Hipolink** - mentioned by Boosty support about this service accepting Paypal.
- **Gumroad** - here I sell my monthly packs, you can also purchase commission as a digital product, and have the option for customizable refund with fees. Works with EUR only, not tested yet for commissions specifically.
- **EasyStart** - option for people who is fine with this guide [https://start.easystaff.io/pay\\_via\\_paypal](https://start.easystaff.io/pay_via_paypal) or that already worked with this service because first setup and launch is a complicated process that people miss a lot and most would like to not participate . **Accepts Paypal, Stripe, Bank Cards**

Preferability depends on

1. Currency, no need to convert and calculate fees
2. How fast it is to work with the platform
3. How familiar this platform is for customers
4. How quick it is to withdraw or keep money on a platform for refund. (Patreon withdraws for a week manually, Boosty does it next day automatically, Gumroad does once a month automatically)

***Free to ask if unsure about price***

# Payment plan

## **Payment plan**

A **payment plan** is an agreement with the customer to pay the taxes you owe within an extended timeframe.

You should request a payment plan if you believe you will be able to pay your taxes in full within the extended time frame.

Payment plan is available for commissions over 200\$ for 2-3 weeks, ask if unsure.

### **Example:**

The customer ordered a commission for 250\$ and asked for a payment plan for 2 weeks cause for now they have only half of the price on hand or less.

Artists can provide a plan where they pay 50\$ immediately and 100\$ each monday for 2 weeks.

For 50\$ payment they will have sketch

For next payment they will have lineart

For final week they will have finished piece

If a customer stopped paying taxes - there are no refunds and money that they already sent stay at the artist cause their job is already done.
