

SL: Amplify your reach and more!

What's up Su,

I came across your instagram reel " Can you guess how I got my name? Hint: today's my birthday 🥳 " the music got me hooked, I believe that was the point 😊.

I saw your Instagram feed and with more focused headlines in your thumbnails for your instagram and youtube content you can grow your opportunities for monetization, engagement and following.

Your last two instagram posts are proof of that!

You got 10.5K ❤️ and 110 💬 and the other got 21K ❤️ and 137 💬.

I wrote some headlines at the bottom of the email that you can use in your content.

I'd love to hear your thoughts on these headline suggestions and if it's something you have considered before?
