Energy healing assists the body with the intention of bringing it back into balance. Often this work accelerates other healing work/modalities expressing themselves within our physical, emotional, mental and spiritual bodies.

Your role is to be willing to accept the healing energy and be willing to bring your awareness into issues if necessary. The outcome of these sessions is between you and God. We support the belief that all people have guardian angels that will assist them to heal upon request.

Energy work sessions are not a substitute for medical or psychological care; they are one aspect of a holistic health treatment. We encourage clients to seek the care of licensed health care providers as needed.
