Originally started as a child of a ruthless pirate, he was pushed hard by his father to - one day - step in his footsteps. Spending most time on the sea and working on the ship, he has become quite the bulky and enduring man. While "blessed" with a certain level of native wisdom, his nomadic life has kept him away from any books that he could study.

Home escape - from Liguria - to reach Spain and embark on a hub on an oceanic merchant ship.
At home he has always helped the family in fishing and hunting.

Hope only to live a better life in the new world - the idea is to put together some money then land in America and stay there.

Destiny, however, wanted a different career for him. The last ship - a flamboyant Spanish flag - to which it was embarked was taken over by British pirates.

Being only a hub was asked to decide his destiny. He chose to join the crew of the corsairs.

Fairfaced and youthful, even as young college students, one would often confuse one for the other. While Darius was studying the ancient histories and arts, Daria is a gamer that enjoys distance from others. While she shares the same love of art, he isn't entirely artistic... More of an abstract artist. Daria often prefers being in nature and away from civilization.

Darius is also known for being unkempt, having let his hair grow long, which went to further the misconception that he and his sister were the same. There was one day, during finals their junior year, where they had swapped classes, but let's not dwell on that. Daria would prefer her appearance well kept, often keeping her hair up and keeping as covered as she can. Her body is her temple. Both had only recently applied for their Master.

Daria wears a black button up shirt that is always buttoned up and tucked into a pair of long shorts. She's insistent that her brother also wears a red tie and suspenders which she thinks fits the outfit well. It's better to hide weapons this way and she'd prefer no one knew she was armed. Darius always unbuttons and untucks his clothing, leaving his chest open and his weapons out in pride. The time is always stuffed into a pocket of the clothing so that if he has to use it later he can.

Kosh TheRipper:

The current setting is September in the court of a "Lord Herman" who has gathered you all together. Lord Herman looks like a rather regal man, with a chronic case of hat hair, he has a lovely handlebar mustache, and a very predatory look to him. He's known as a major investor in the 13 colonies.

"I've hand selected all of you for this special task... Blackbeard they say is running around the coast of the Carolinas and is in possession of something that I want... Something important..."

[6:59:58 PM]Pakaran (Nathan, L13, Rochester NY):

About how old is he?

[7:00:21 PM]Kosh TheRipper:

"I've selected Lieutenant Robert Maynard as your commander for this task..."

Lord Herman gestures, and out walks a very astute looking worldly man. The LT gives a firm now in greeting and he says, "I've been working hard to gather information on Blackbeard's whereabouts. We're embarking for the colonies in the following morning.. Successful completion of this mission means a handsome reward for all of you."

[7:02:51 PM]Nemo Madkcat:

And I'm assuming we've been in the court for at least a little while?

[7:03:07 PM]Kosh TheRipper:

You notice that LT Maynard is carrying a rather elegant looking silver cup. Which he places within a satchel. Lord Herman gets up with a nod, and Lord Herman says, "With all of your talents, this task should be simple... I know you're all healthy enough to make this voyage... Trust me. I'm a Doctor."

You've been in court just a couple of days and have been treated VERY well.

Lt. Maynard replies , "Your reward will be enough gold to live comfortably for a decade..."

Domingo looks more worried, mumbling under his breath " I hate the French as much as any man but."

[7:14:58 PM]Ariel Diana:

"Hmmm only a decade... that's not that long"

[7:15:12 PM]Kosh TheRipper:

Lt. Maynard looks to Lucey, "If you gain my trust, I'll privy you to the information, Now we must retired... on the morrow we sail."

[7:15:32 PM]Nemo Madkcat:

"and on what ship, if I may be so bold?"

[7:15:45 PM]Pakaran (Nathan, L13, Rochester NY):

[7:16:04 PM]Nemo Madkcat:

Darius speaks briefly, as he joins the others, taking better measure of the others.

Everyone is given the information. LT. Maynard has his mouth agape a moment, and he says, "So it is true... Blackbeard does have it on his ship..."

Domingo steps back, startled, and his damaged leg nearly makes him stumble. "Then we have to hurry."

@Arielsmurfeater @Lucoire @Madkcat You three find the mother load of documents! You find the old silver chalice as LT Maynard quickly snatches it from you and replaces it with the fake. You also find documents from Charles Eden the Governor of North Carolina has allowed Blackbeard to operate off the coast and you all find something else.

[9:23:57 PM]Ishira Tsubasa:

LT Says, "Check below decks.. you all can take whatever you can find... ".. The LT takes the incriminating documents and he departs from the Adventure. He's very protective of the chalice right now.

[9:28:37 PM]Ishira Tsubasa:

The Adventure quickly bursts into the flames and is overtaken by the sea. The crew aboard the Ranger was able to free the speedy ship and the anchors are pulled up as you all head back to the Virginia port.. There you're greeted with Lord Herman himself. He moves aside on the pier to reveal an open chest with enough to gold to keep everyone set easily for a decade. As LT Maynard approaches Lord Herman, Maynard pulls out the chalice and hands it over to Lord Herman, and you all notice that Lord Herman has a strange looking hat on. he tips his hat, takes the chalice and walks into the crowd on the pier, vanishing within the crowd rather errily.
